LUCECO
G R O U P

With over 80 years' experience, the Luceco PLC brands of Luceco LED Lighting, Kingfisher, BG Electrical, Masterplug and Ross are market leaders in key electrical categories, offering a "one stop shop" for trade and retail accessories.

Luceco is a manufacturer and distributor of high quality and innovative LED lighting products, wiring accessories and portable power products for a global customer base.

Our reputation is based on the reliability and functionality of our innovative products. By offering market leading warranties, technical support, dedicated customer service and marketing backup, we aim to make it easy for customers to specify and install sustainable lighting.

The teams behind Luceco have over 100 years combined lighting industry experience gained over disciplines such as product design, development, testing and product management. This enviable expertise coupled with the group resources mean that Luceco have the knowledge and ability to be at the forefront of LED lighting technology.

Luceco believes that we have a responsibility to care for and protect the environment in which we operate. We are fully committed to improving environmental performance across all of our manufacturing and other business activities, continually looking for new methods and materials to provide environmentally friendly solutions.

Our brands:

Wiring Accessories

BG Electrical is a leading manufacturer and distributor of high quality and innovative wiring accessories, circuit protection and portable power. With over 80 years of experience in manufacturing and distribution of electrical accessories, BG has gained an invaluable reputation.

PRODUCT RANGE

- Wiring accessories, comprising a range of switches and sockets in both plastic and decorative metal finishes, including USB charging sockets, Wi-Fi, Smart, exterior and IP weatherproof accessories
- Circuit protection, comprising consumer units (fuse boxes) and industrial switches

EV Charging

With over 80 years experience in the electrical industry, Sync Energy (part of the Luceco PLC Group) inspires confidence and trust. Our range of EV charging products for home, commercial or fleet operator are smart, powerful and safe, packed full of technology to future proof your investment.

PRODUCT RANGE

- Socketed/ tethered EV chargers
- EV accessories & charger cables
- Commercial charging
- EV charger circuit protection

Portable Power

Founded in 1988 Masterplug is the UK market leader, serving retailers and trade wholesalers. We also offer a subrange under the Pro-XT trademark and supply a limited number of unbranded products to major customers. Product range offers solutions for home, garden, DIY, office and commercial.

PRODUCT RANGE

- Cable reels, extension leads, surge protection devices,
- Timers and travel adapters, for indoor and outdoor applications.

LED Lighting

Luceco is a manufacturer and distributor of high efficiency, energy saving LED luminaires to the trade and specification markets. Established in 2013, to address the rapidly growing LED lighting market, Luceco LED lighting has rapidly established itself as one of the leading brands for professional lighting in the UK.

PRODUCT RANGE

- Interior lighting, including panels, downlights, battens and high bay
- Exterior lighting, including floodlights, bulkheads, road lanterns and bollards
- Retrofit lamps and tubes, including replacements for existing light fixtures

TV Wall Mounts & Accessories

Leading manufacturer of TV wall mounts and AV accessories. A full range of products to suit every requirement, from entry level to premium. We have the capability to produce in-house at our industry leading manufacturing facility to meet specific customer requirements and our products are sold worldwide through a network of trade and retail partners.

PRODUCT RANGE

- HDMI, co-axial and satellite connections
- USB charging and audio cables
- TV wall mounts and fixings
- Reception and distribution accessories

Sustainability

Our journey to net zero

Luceco Group is dedicated to achieving net zero and tackling climate change through innovative products and collaboration with experts and consumers in the electrotechnical industry.

Luceco understands the ambition and vision of its customers with a sustainable focus at the forefront, and share this goal of a collective journey towards net zero. Luceco's commitment to net zero goes beyond product development, to business operations, and through to its culture and people.

Luceco's commitment to sustainability is clear, and their range of products and services is helping customers achieve their own sustainability goals. By offering sustainable lighting solutions, Luceco is helping businesses reduce their environmental impact and save on energy costs. With their focus on sustainability and energy efficiency, it's no wonder Luceco is a leader in the lighting industry.

To this end it is our policy to source and manufacture products which comply with the following EU directives (where applicable) to ensure that our environment is protected:

- Directive 2011/65/EU – RoHS (Restriction of Hazardous Substances)
- Directive 2006/121/EC – REACH (Registration, Evaluation and Authorisation of Chemicals)

In addition, we will ensure that all products sold are disposed of in a responsible manner. To facilitate this, Luceco plc carries a valid registration with a notified service provider for compliance with the Directive 2002/96/EC – WEEE (Waste Electrical and Electronic Equipment).

Luceco plc will endeavour to communicate these policies to all members of staff with the express purpose of assisting in the procurement and sourcing of raw materials, sourcing of finished goods, and disposal of company waste. Our manufacturing site has gained ISO 14001:2004 approval for its environmental management system.

We continually aim to reduce our environmental impact from both products and activities. We are always looking for new methods and materials to provide environmentally friendly solutions.

Quality and Reliability

With over 80 years of experience in the manufacture and distribution of electrical accessories, BG has gained an enviable reputation for quality and reliability.

The number one goal of our continuous product development and improvement programs is to meet market and customer needs, both of the end user and installer. Our innovative products are designed with customer feedback and 'quality designed in'.

Our production facility boasts over 40 research & development, product packaging and tooling engineers, ensuring time to market development is minimised.

All products are manufactured to the latest British Standards, and all the company's sites

(both UK distribution and manufacturing) operate a BSI approved ISO 9001:2015 accredited quality management system. Our range of wiring accessories have been tested and approved by ASTA and proudly wear the diamond mark – a sign of quality.

To ensure production quality and performance reliability all products are full type tested regularly in our on-site laboratory housing the latest test equipment. All products are subject to pre-shipment quality control inspections.

Ethical Policy

Luceco plc has an overriding obligation to the welfare of workers within its own manufacturing facility and supply chain.

Luceco plc uses the Ethical Trading Initiative (ETI) Base Code as it's standard for its own manufacturing operation and all primary suppliers across all our businesses.

The code states:

- Employment is freely chosen
- Freedom of association and the right to collective bargaining are respected
- Working conditions are safe and hygienic
- Child labour shall not be used
- Living wages are paid
- Working hours are not excessive
- No discrimination is practised
- Regular employment is provided
- No harsh or inhumane treatment is allowed

BG Guarantees

Confident in our workmanship and materials, BG offer a substantial guarantee on all products.

The BG Circuit Protection range of products are guaranteed against faulty materials and workmanship for a period of 10 years from date of delivery.

BG Electrical wiring accessory products are guaranteed against faulty materials and workmanship for a period of 25 years from date of delivery.

Nexus round edge white moulded range is guaranteed against faulty materials and workmanship for a period of 30 years from date of delivery.

Guarantees are subject to BG Electrical's conditions of sale and in particular to the following conditions being met:

- Notification of any defect is given to BG Electrical as soon as reasonably practicable after becoming apparent, and the products then returned to BG Electrical.
- The products have only been operated under normal operating conditions and have only been subject to normal use.
- No work (other than normal and proper maintenance) has been carried out to the products without BG Electrical's prior written consent.
- The products have been assembled or incorporated into other goods by a qualified and recognised electrician and only in accordance with any instructions issued by BG Electrical.
- The defect has not arisen from an item manufactured or supplied by a person other than BG Electrical.
- Products will be repaired or (at BG Electrical's discretion) replacements will be supplied or (at BG Electrical's discretion) a credit note will be issued.

BG

SUPERFAST

USB SOCKETS

45W | **22W**
Perfect for laptops | Ideal for phones

Faster, Smarter USB charging.

All of BG Electrical's switches and sockets have been developed with the contractor in mind, with features that make installation as quick and as easy as possible.

The latest innovation from BG Electrical is designed for performance and convenience, with USB Type-C & USB Type-A Ports, utilising variable fast charging technology to protect and prolong battery life by only delivering the power a device needs, when it needs it.

Offering fast, smart, straight-to-wall charging solutions designed to optimise socket usage. Striking the perfect balance between functionality, aesthetics, and efficiency.

The 45W USB wall sockets are perfect for charging higher powered devices such as laptops & tablets, whilst the 22W USB wall sockets are ideal for smartphones and smaller devices, providing straight-to-wall charging without the need for bulky adaptors, leaving your spaces tidy and freeing your sockets.

Fast charging can deliver up to 50% charge to smartphones in as little as 30 minutes. Charge time varies with environmental factors and actual results will vary.

Variable voltage fast charge USB ports can charge up to 70% faster than standard 12W-15W charging (*when charging a iPhone 13 or similar device from 0% battery).

IN THE RANGE

White Moulded USB	17
Evolve USB	68
Flatplate USB	80
Nexus Metal USB	91

BG Electrical products are guaranteed against faulty materials and workmanship for a period of 10 years from date of delivery.

Universal Compatibility

Compatible with all brands of laptops, smartphones, tablets, smartwatches and other USB chargeable devices.

Variable vs Fixed Voltage?

Variable Voltage sockets use built-in smart charging technology to communicate with the individual device, to only deliver the power a device needs, when it needs it. Meaning devices can charge from 0-50% or more, in as little as 30 minutes.

Variable Voltage follows three stages of charging:

Stage 1: Where fast charging occurs – 50% in 30 minutes.

Stage 2: The output slows as the battery nears full to protect battery health.

Stage 3: Once the battery is fully charged a small charge will be offered periodically as a 'top up', whilst pushing the maximum output to the other USB Port.

This protects and prolongs battery life, by never overcharging connected devices.

Variable Voltage USB Sockets are available in 45W & 22W.

Fixed Voltage sockets offer a cost-effective solution where speed of charging is not a priority (*e.g. charging overnight*). These sockets will enter standby mode when a device is fully charged, protecting the devices battery life.

Fixed Voltage USB Sockets are available in 15W & 12W.

Is 45W Faster than 22W?

A **45W** wall socket typically charges faster than a 22W wall socket, however charging speeds will vary depending on the device and charging conditions.

Device capability: If the device supports fast charging of 45W or above, you will see faster charging than with a 22W socket. If the device can only accept 22W, then the charging speed will be the same.

Cable quality and type: The charging cable must support higher wattage for fast charging.

Battery management software: As the battery gets closer to full capacity, the device's software controls may slow down the charging speed to prevent damage, affecting the perceived charging speed between a 45W and a 22W charger.

45W wall sockets are perfect for charging higher powered devices such as laptops & tablets.

22W wall sockets are ideal for smartphones and smaller devices.

USB Power Delivery

USB Power Delivery (USB-PD, or PD) is a fast charging technology supported by certain Apple, Android and other devices. PD delivers much higher levels of power than standard USB charging. To use USB-PD you will need a USB-PD enabled device, USB-C cable and USB-PD charger.

Benefits include more power, faster charging, and voltage adjustment, which enables fast charging without delivering too much power which could lead to damaged circuitry from overcharging or overheating.

Qualcomm Quick Charge

Qualcomm Quick Charge (QC) is a fast charging technology supported by popular smartphone manufacturers including Samsung, LG and Sony. QC delivers much higher levels of power than conventional USB charging with the same benefits as USB-PD. To use Qualcomm Quick Charge, you will need a QC enabled device, cable and charger.

There is an increased demand within the home to charge multiple devices at the same time, as well as much faster and easier charging. Having several BG Fast Charging wall sockets around the home enables every family member to charge their devices without an argument over who gets the charging adaptors first!

In the commercial sector, high-footfall venues present a significant requirement for fast-charge points. From coffee shops, pubs, and restaurants, to hotels, conference venues, and airports ... having access to a fast USB charging socket is a selling point. As society becomes increasingly digital, and staying connected is critical, offering the facility for customers to fast charge their devices, and in turn reduce 'charge anxiety', could be a key factor in attracting customers.

White Moulded Wiring Accessories

If you are looking for a simple, sleek design, look no further than our range of moulded white wiring accessories. The range is available with round or square edge profiles.

The round edge gives a premium feel whilst the square edge offers exceptional value. Both come with a wide range of features and benefits and are easy to install with angled in-line colour coded captive terminals.

BG White Moulded wiring accessories promote a healthy environment by facilitating up to 99% reduction in bacterial development on touch point surfaces. Manufactured using high grade thermoset Urea which effectively inhibits the growth of infectious diseases, including MRSA, E-Coli, Salmonella and Klebsiella Pneumonia bacteria.

IN THE RANGE

USB Sockets	16
20 Amp Switches	18
13 Amp Sockets	19
RCD Protection	20
FCU's	21
45 Amp Switches	22
DP Switches	23
Shaver Sockets	23
Dimmers	24
Co-Ax Outlets	25
Blank Plates & Boxes	26
Wi-Fi Sockets	30

BG Electrical products are guaranteed against faulty materials and workmanship for a period of 25/30 years from date of delivery.

Features & Benefits

Flush LED power indicators

Screw covers for sleek appearance

Made from robust thermoplastic Urea with anti-microbial properties

Angled in-line colour coded captive terminals

Twin Earth

www.bgelectrical.co.uk

13 Amp Single Switched Socket with Fast Charge USB A + C (18W)

- Ideal for charging smartphones, tablets, power banks and portable gaming devices
- Simultaneous charging of two devices
- Smart charging with variable voltage - only delivers the power that your device needs without overcharging
- Supports PD & QC charging protocols for Android and iOS devices (when using a certified cable)
- Minimum mounting box depth 25mm - ideal for retro-fit
- Terminal Capacity 3 x 2.5mm, 3 x 4.0mm, 2 x 6mm
- Twin Earth fitted as standard - Ref. BS 7671:2008
- Manufactured to BS1363-2

821UAC18

Round Edge	Square Edge	Description	Inner Carton	Outer Carton
821UAC18	921UAC18	13A Single USB Socket A+C 18W	10	100

13 Amp Double Switched Socket with 2 x USB (12W)

- Ideal for charging phones, smart watches, headphones and e-readers
- Simultaneous charging of two devices (12W shared across both ports)
- Minimum mounting box depth 25mm - ideal for retro-fit
- Terminal Capacity 3 x 2.5mm, 3 x 4.0mm, 2 x 6mm
- Twin Earth fitted as standard - Ref. BS 7671:2008
- Manufactured to BS1363-2
- 10 Year Guarantee

822UAC12

Round Edge	Square Edge	Description	Inner Carton	Outer Carton
822UAA12	922UAA12	13A Double USB Socket 2xA 12W	5	50
822UAC12	-	13A Double USB Socket A+C 12W	5	50

13 Amp Double Switched Socket with 2 x USB A and 1 x USB C (15W)

- Ideal for charging phones, smart watches, headphones and e-readers
- Simultaneous charging of three devices (15W shared across three ports)
- Minimum mounting box depth 25mm - ideal for retro-fit
- Terminal Capacity 3 x 2.5mm, 3 x 4.0mm, 2 x 6mm
- Twin Earth fitted as standard - Ref. BS 7671:2008
- Manufactured to BS1363-2
- 10 Year Guarantee

822UAC15

Round Edge	Square Edge	Description	Inner Carton	Outer Carton
822UAC15	922UAC15	13A Double USB Socket 2xA 1xC 15W	5	50

Fixed Voltage

When charging speed is not a primary concern (e.g. charging overnight).
Ideal for charging phones, smart watches, headphones and e-readers.

Universal compatibility and competitively priced USB A and C solutions
– power shared between 2 ports.

Smart USB – adjusts output to suit connected device and will enter stand-by mode when fully charged. Protective overload function.

BG SUPERFAST

USB SOCKETS

45W | 22W

Perfect for laptops | Ideal for phones

Faster, Smarter USB charging.

With USB Type-C & USB Type-A ports, utilising variable fast charging technology to protect and prolong battery life by only delivering the power a device needs.

822DPOB	-	Double DP, switched, outboard rockers	5	50
823	923	Single unswitched	10	100
824	924	Double unswitched	5	50
825	925	Single switched with indicator	10	50
826	926	Double switched with indicator	5	50

13 Amp Door Chime Power Socket Outlet

- Integrated door chime keeps sockets free
- 100m (open air) wireless range - suitable for large homes
- Adjustable volume up to 80dB
- LED indicator - visual indication of door chime activation
- Battery Powered IP44 rated push button supplied with CR2032 battery
- Minimum mounting box depth 25mm
- Terminal capacity 3 x 2.5mm², 3 x 4.0mm² & 2 x 6.0mm²

822BELL

Round Edge	Description	Inner Carton	Outer Carton
822BELL	Double, switched	5	20

13 Amp Converter Switched Socket Outlet

- Converts a single socket to a double with no alteration to the wall box
- Minimum mounting box depth – 25mm
- Terminal capacity 3 x 2.5mm², 3 x 4.0mm² & 2 x 6.0mm²
- Manufactured to BS 1362 Part 2

822CON

Round Edge	Square Edge	Description	Inner Carton	Outer Carton
822CON	-	Double, 2 way SP	5	50

3 Step Easy Install

- 1 Switch off electricity supply & remove the old socket

- 2 Fix to wall box & fit screw cover caps

- 3 Connect the new converter socket

Type A RCD Protection

- Maximum load 3120 watts 240V
- 30 mA trip speed 40 ms
- Latching type
- Terminal capacity 3 x 2.5mm², 2 x 4.0mm² & 1 x 6.0mm²
- Manufactured to BS 7288:2016
- Minimum mounting box depth – 35mm
- 855ARCD – Removable flex outlet
- 10mm spacer provided for shallow boxes

822ARCD

855ARCD

Round Edge	Description	Inner Carton	Outer Carton
822ARCD	13 Amp double switched socket	5	50
855ARCD	13 Amp fused connection unit	10	100

RCD Types – Latching vs Non-Latching

There are 2 types of RCD – Latching and Non-Latching; also termed active and passive. Both types are accepted by British Standards and it is up to the user to choose the type of RCD most suitable for their application.

Latching Passive RCD

Latching, or Passive, RCD's "remember" the state they were in prior to the power being switched off.

Non-Latching Active RCD

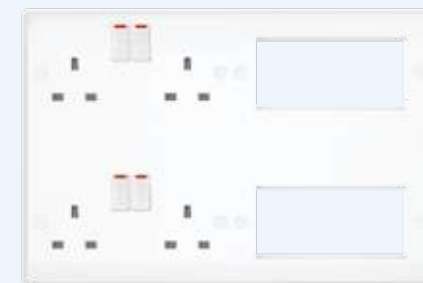

Non-latching, or Active, RCDs switch off when the power to them is turned off. Every time the supply to the RCD is interrupted it will trip and will need to be reset.

Combination Plates

- Twin earth fitted as standard to sockets
- Manufactured to BS 1363 Part 2
- Terminal capacity 3 x 2.5mm², 3 x 4.0mm² & 2 x 6.0mm²
- Mounting box depth – 47mm
- Mounting boxes 822EM8 – HGS07/C4, 822EM4 – HGS07/C2
- Modules of mains and extra low voltage rating must not be fitted to the same front plate aperture Ref. BS 7671:2008

*See our Euro Module range for further Telecom, Data and Co-axial options

822EM8

Round Edge	Description	Inner Carton	Outer Carton
822EM4	1 x Double DP 13 Amp switched sockets and 4 Euro module (1 x 4 EM)	1	10
822EM8	2 x Double DP 13 Amp switched sockets and 8 Euro module (2 x 4 EM)	1	20

13 Amp Fused Connection Units

- Manufactured to BS 1363-4
- Angled colour coded terminals with captive screws
- Terminal capacity 3 x 2.5mm², 2 x 4.0mm² & 1 x 6.0mm²
- Minimum mounting box depth – 25mm
- Square edge products have an integrated flex outlet and reversible cord-grip. Flex out knockout on bottom edge of the plate
- Round edge spacer option available to convert for flex out option (8CGS) – See page 25

45 Amp Double Pole Switches

- Cooker control units manufactured to BS4177
- Double pole switches to BS EN 60669-1
- Minimum mounting box depth – 47mm
- L & N terminal capacity 4 x 4.0mm², 3 x 6.0mm² & 1 x 16.0mm²
- E terminal capacity 3 x 4.00mm², 3 x 6.0mm² & 1 x 6.0mm²
- 10mm spacer available to provide additional wiring space (817 – Sq, 818 – Rect)

Round Edge	Square Edge	Description	Inner Carton	Outer Carton
872	972	Large plate with indicator	5	50
873	973	Large plate	5	50
874	974	Single plate with indicator	10	100
875	975	Single plate	10	100

45 Amp Cooker Control Unit

- Cooker control units manufactured to BS4177
- Double pole switches to BS EN 60669-1
- Minimum mounting box depth – 47mm
- L & N terminal capacity 4 x 4.0mm², 3 x 6.0mm² & 1 x 16.0mm²
- E terminal capacity 3 x 4.00mm², 3 x 6.0mm² & 1 x 6.0mm²
- 10mm spacer available to provide additional wiring space (817 – Sq, 818 – Rect)

Round Edge	Square Edge	Description	Inner Carton	Outer Carton
870	970	Cooker control unit with 13 Amp socket and indicators	5	50
871	971	Cooker control unit with 13 Amp socket	5	50

45 Amp Cooker Outlet

- Terminal capacity outlet 2 x 10mm²
- Cable entries in bottom edge
- Manufactured to BS 5733

Round Edge	Square Edge	Description	Inner Carton	Outer Carton
879	979	Flex outlet plate, bottom entry	10	100

25 Amp Flex Outlet Plate

- Cable entry at lower edge, with removable reducer, and reversible cord-grip
- Terminal capacity 3 x 2.5mm² & 1 x 4.0mm²
- Minimum mounting box depth – 25mm
- Manufactured to BS 5733

Round Edge	Square Edge	Description	Inner Carton	Outer Carton
858	954	Flex outlet plate, bottom entry	10	100

20 Amp & 32 Amp Double Pole Switches

- 20 Amp terminal capacity 3x 2.5mm², 2 x 4.0mm² & 1 x 6.0mm²
- 32 Amp terminal capacity 2x 10mm² & 1 x 10mm² earth
- Colour coded terminals with captive backed out screws
- Manufactured to BS EN 60669-1
- Minimum mounting box depth – 25mm
- Square edge has flex outlet with knock-out and reversible cord grip in bottom edge. Rounded edge cable entry at lower edge, with removable blanking piece, and reversible cord-grip

Round Edge	Square Edge	Description	Inner Carton	Outer Carton
830	930	20 Amp	10	100
831	931	20 Amp with indicator	10	100
832	-	20 Amp with flex outlet	10	100
832WH	932	20 Amp, marked water heater with flex outlet	10	100
833	-	20 Amp with indicator and flex outlet	10	100
833WH	933	20 Amp, marked water heater, indicator & flex outlet	10	100
83112	-	20 Amp immersion heater switch with indicator	10	100

Shaver Socket

- Terminal capacity 3 x 2.5mm² & 2 x 4.0mm²
- Minimum mounting box depth 47mm
- Manufactured to BS EN 61558-1 and BS EN 61558-2-5

Round Edge	Square Edge	Description	Inner Carton	Outer Carton
820	940	115/240V dual voltage shaver socket	5	30

Intelligent Dimmer Switch - Push Type

- Intelligent dimmer suitable for LED, halogen and incandescent lamps
- Soft start, smooth dimming control and silent operation
- 2 Way push on/off with rotary control
- Overload protection
- Clearly marked terminals with backed out captive screws for easy installation
- Terminal capacity 3 x 1mm², 2 x 1.5mm² & 1 x 2.5mm²
- Manufactured to BS EN 60669-2-1
- Minimum mounting box depth 25mm
- 220-240V AC

882

Round Edge	Square Edge	Description	Inner Carton	Outer Carton
881	981	Single, 2 way push on/off	10	100
882	982	Double, 2 way push on/off	10	100
883	983	Triple, 2 way push on/off	5	50
884	984	Quadruple, 2 way push on/off	5	50

Replacement Modules

DMLT

- Intelligent dual dimmer module allows you to switch between leading and trailing edge.
- Set to trailing edge as default.
- Suitable for LED, halogen and incandescent lamps.
- Trailing edge mode: 5-150W
- Leading edge mode: 5-100W

DMSW8A/2W

- Dummy dimmer switch gives the appearance of a dimmer switch, but with regular on/off 2-way switching (no dimming function).

Product Code	Description
DMSW8A/2W	2 way push on/off switch, dummy dimmer, 100W
DMLT	2 way intelligent dual dimmer module, 150W

16 Amp Hotel Key Card Switch

- 50 x 50mm Euro Module with locator LED
- Load rating – 1800W for incandescent, 800W for fluorescent
- 30 second power-off delay
- Mounting box depth – 47mm
- Colour coded terminals with backed-out captive screws
- Designed and manufactured to BS EN60669-4
- Supplied as kit of Euro Module components

8KYCSW

Round Edge	Description	Inner Carton	Outer Carton
8KYCSW*	16 Amp, hotel key card switch	5	100

Co-Axial, Satellite & Screened Socket Outlets

- EM = Euro Module configuration
- Manufactured to BS 5733 where applicable
- Co-axial and satellite minimum mounting box depth – 25mm
- Triplex minimum mounting box depth – 35mm

*See our Euro Module range for further Telecom, Data and Co-axial options

Antimicrobial Properties

White Moulded Wiring Accessories

BG Nexus white moulded wiring accessories promote a healthy environment by facilitating up to 99% reduction in bacterial development on touch point surfaces. Manufactured using high grade thermoset Urea which effectively inhibits the growth of infectious diseases, including MRSA, E-Coli, Salmonella and Klebsiella Pneumonia bacteria.

Surface Boxes and Spacers

- Surface boxes have multiple knock-outs and earth terminal fitted as standard
- Manufactured to BS 5733
- Spacers provide greater clearance for installation wiring where shallow mounting boxes are used, an alternative to fitting a deeper box

Round Edge	Square Edge	Description	Inner Carton	Outer Carton

Cord Grip Spacer Explained

- For use with non flex out 13 Amp fused connection units and 20 Amp switches
- Cable is inserted through the aperture in the spacer and connected to the terminals. It is then clamped by the cord grip prior to mounting the accessory to the wall box
- Separate spacer allows for stock flexibility

Extend your Wi-Fi coverage throughout your home

Wi-Fi Socket Range Extender

Designed to work with all wireless broadband routers and easy to install with one touch WPS, this includes a USB charging port and eradicates the need for plug in adaptors, keeping sockets free for use. Available in a white moulded, decorative and weatherproof options and designed to fit a 25mm backbox, ideal for retrofit.

IN THE RANGE

Wi-Fi Extender Socket 34

BG Electrical products are guaranteed against faulty materials and workmanship for a period of 10 years from date of delivery.

13 Amp Wi-Fi Extender Socket with USB Charger 1x Outlets 2.1A

- Extend your Wi-Fi coverage through-out your home
- Works with all wireless broadband routers
- Easy to install and setup with one touch WPS
- N300 Wi-Fi technology – Up to 300Mbps data transfer speed. Single band (2.4GHz)
- Perfect for streaming music and videos or playing online games
- USB charger ideal for phones, tablets, cameras and other USB devices
- Double switched socket with outboard rockers
- Minimum mounting box depth – 25mm; ideal for retrofit
- Manufactured to BS1363-2
- Terminal capacity 3x 2.5mm², 3x 4.0mm² & 2x 6.0mm²

BG LUCECO Smart!

SMART HOME POWER & LIGHTING

Take control of your **connected devices** from anywhere

Your life connected, your life smarter!

Simple to set up and ideal for retro-fit installation, these sockets work using your home Wi-Fi network, providing an inexpensive smart home solution with no Hub required – simply download the BG Home App to control your sockets with your smartphone.

Automate your devices with timers, scenes, delays and random operation, and protect your settings with the parental lock function whilst sharing control with others in your household.

The smart home integrations with Amazon Alexa, Hey Google and Siri Shortcuts allow you to operate your sockets using your voice and set up automated actions based on geolocation, weather and more for a truly smart solution.

Control your Power by:

Compatible with:

IN THE RANGE

Smart Socket	35
Smart Adaptor	35
Smart Outdoor Socket	35
Smart Extension Lead	35
Smart Lighting	36

BG Electrical products are guaranteed against faulty materials and workmanship for a period of 3 years from date of delivery.

HOME AUTOMATION

Set Timers

Set up timers so your device will turn on/off at specific times. You could set a timer to have your morning coffee ready each day and save energy by turning off unused sockets.

Set a Delay

Ideal for sockets and adaptors where you require extra safety, such as hair straighteners, and for when you want to charge your mobile device for a set period of time; turning off once reaching full charge.

Create Scenes

Add different smart scenes to suit your lifestyle. Turn multiple sockets and adaptors on/off together without having to operate them independently.

Random Function

Operate lamps and other devices randomly to mimic home occupancy for additional security. Set a time period to run random operation and toggle on/off when required.

KEEPING YOU IN CONTROL

Parental Lock

Easily de-activate the smart socket buttons to prevent others from changing any in-app settings and prevent sockets being turned on and off at the wall.

Share Control

Invite other household members to share control of sockets within the app whilst protecting your key settings with the parental lock.

Manage Homes

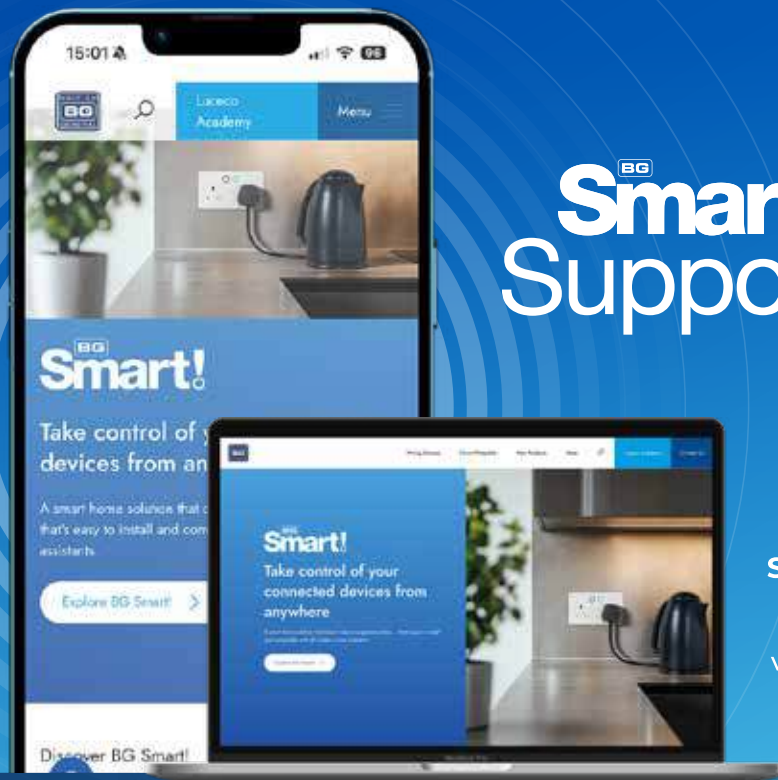

Create multiple homes to manage devices in more than one property and switch easily between properties within the app.

Custom Notification

Be aware of your devices status at all times and add custom notifications in the smart app so you know if a device has gone offline.

13 Amp Switched Smart Socket & 13 Amp Smart Power Adaptor

- Control and schedule power indoors via touch, voice commands or App
- Operates using your home Wi-Fi network on 2.4GHz
- Set timer schedules, countdown function or random security options
- Compatible with Hey Google, Amazon Alexa and Siri shortcuts
- Manufactured to BS1363-2

Socket

- Individual socket control
- Minimum mounting box depth – 25mm; ideal for retrofit
- Terminal capacity 3 x 2.5mm², 3 x 4.0mm² & 2 x 6.0mm²

Adaptor

- Plug in adaptor – no wiring required

Smart 13A Switched Outdoor Socket

- Control and schedule power outdoors via touch, voice commands or App
- Operates using your home Wi-Fi network on 2.4GHz
- Set timer schedules, countdown function or random security options
- Compatible with Hey Google, Amazon Alexa and Siri shortcuts
- Ideal for operating outdoor lights and water features
- Individual socket control
- IP66 rated, seals plugs in use
- High impact polycarbonate housing
- Patented cable entry prevents accidental opening
- Large open/closer paddles for easier operation
- Fast fix – no separate screws, no screw covers, 150° rotation
- Lockable hinged cover
- Terminal capacity 3 x 2.5mm², 3 x 4.0mm² & 2 x 6.0mm²
- Manufactured to BS1363-2

WP22/HC

RPM8	8 module, square	10	100

Nexus Grid Modular System

Ideal for domestic, commercial and industrial applications, and allows you to build your own module configurations with a variety of combinations and finishes.

The range benefits aesthetically from having no visible plastic around the switches. Grid is also designed to be easy to install with a cantilever module to frame installation and interchangeable rockers to provide flexibility.

Nexus Grid is available in Nexus Metal, White Moulded, Screwless Flatplate, Metal Clad, Part M and Evolve ranges – 16 stocked finishes in total.

Evolve

IN THE RANGE

Grid Frames	52
Boxes	52
Rockers	53

BG Electrical products are guaranteed against faulty materials and workmanship for a period of 25 years from date of delivery.

Features & Benefits

*Anti-microbial properties for white moulded

Quick & Easy to install

Step 1

Fit and secure appropriate mounting box and frame:

- Cable should be protected by using grommets or conduit in the rear box cable entries.
- Pull cabling through frame and strip insulation accordingly.
- Ensure an earth connection between frame and box.
- Systematically terminate cables into each module.
- For Metal Clad installations the grid frames should have the spacers, supplied with the front-plate, positioned over the rear box lugs to locate the frame at the correct height.

Screwless Flatplate Assembly:

When fitting one or three modules to the Screwless Flatplate grid frame, the blanking strips supplied must be fitted either side of the modules to prevent access to the wiring area.

It is recommended to decorate the wall before fixing the frontplate.

Position the frontplate with the removable notch located over the angled face of the gasket in the lower right-hand corner and with the clips located in the apertures, push to secure.

Step 2

Fit modules to frame:

- Locate the smaller central tab of the module into the notch of the frame with the larger central tab behind the frame and pivot upwards and clip into place.
- Frames should be fitted to the wall box using the fixing screws provided. Check the vertical position, and tighten frame screws securely. (Do not over tighten).
- Attach the front-plate using the fixing screws provided or attach screwless plates to the fixing points provided. For Screwless installations please see the additional assembly notes.

Antimicrobial Properties

White moulded Grid plates & modules

BG Nexus white moulded wiring accessories promote a healthy environment by facilitating up to 99% reduction in bacterial development on touch point surfaces. Manufactured using high grade thermoset Urea which effectively inhibits the growth of infectious diseases, including MRSA, E-Coli, Salmonella and Klebsiella Pneumonia bacteria.

20 Amp 20AX Modules

- Simple secure 'locate & clip' fitting to frame
- Alternative printed rocker covers available
- Clearly marked terminals with backed out captive screws for easy installation
- Terminal capacity 4 x 1.0mm², 4 x 1.5mm², 2 x 2.5mm² & 1 x 4.0mm²
- Manufactured to BS EN 6609-2-1
- Minimum mounting box depth 25mm
- 20 Amp, 20AX inductive rated

Dimmer Modules

- Switchable dimmer module for choice of trailing or leading edge (set to trailing edge as default)
- Soft start, smooth dimming control and silent operation
- 2 Way push on/off with rotary control
- Overload protection
- Suitable for LED, Halogen and Incandescent lamps
- Clearly marked terminals with backed out captive screws for easy installation
- Terminal capacity 2 x 1mm² & 2 x 1.5mm²
- Manufactured to BS EN 60669-2-1
- Minimum mounting box depth 25mm
- 220-240V AC

Load Rating (Max/Min per module)

Replacement & Interchangeable Rockers

Replacement rockers – Switch modules are supplied with plain rockers, however a selection of pre-printed rockers are available.

To replace:

- Remove existing rocker by inserting screwdriver under rocker cap and lifting.
- Position replacement cap into aperture and clip into place ensuring text is correctly aligned in relation to top of module.

Wiring Accessories

A range of reliable contractor wiring accessories required for any installation

Module Description

Technical Information – Screened Outlets	Frequency Range (MHz)	Insertion Loss (dB)
Single TV Module – IEC male / female	0-862	0.5
Double TV and satellite module – IEC male + satellite female	TV – 5-68, 470-862 Satellite – 950-2400	TV – 1.0 Satellite – 2.0
Triple TV, radio and satellite module – TV IEC male + radio IEC female + satellite female	TV – 5-68, 470-862, Radio – 88-230, Satellite – 950-2400	TV – 1.0, Radio – 1.0, Satellite – 2.0
Single satellite module – satellite female	0-2400	2.0
Double TV and radio module – TV IEC male + radio IEC female	TV – 5-68, 470-862 Radio – 88-108	TV – 1.0 Radio – 1.0
Quadruple TV, radio and dual satellite module – TV IEC male + radio IEC female + dual satellite female	TV – 5-68, 470-862, Radio – 88-230 SAT1 – 950-2400, SAT2 – 0-2400	TV – 1.0, Radio – 1.0, SAT1 – 2.0, SAT2 – 2.0

Blank Modules

- Module blanks are ideal for covering up unused space in your Euro-module plate
- Aperture sizes:
1/2 Module: 6.25 x 50mm
1 Module: 12.5 x 50mm

USB Charger Modules

45W USB A+C Module

- Ideal for charging tablet, laptops and smartphones
- 45W shared between two ports
- Minimum mounting box depth 47mm

15.5W USB 2xA Module

- Ideal for charging smartphones and other portable USB devices
- 15.5W shared between two ports
- Minimum mounting box depth 35mm

Both modules:

- Terminal capacity 1 x 2.5mm² or 1 x 4.0mm²
- Manufactured to IEC 61558-2-16

EMUSBAC45B

16 Amp Hotel Key Card Switch

- 50 x 50mm Euro Module
- Load Rating – 1800W for incandescent, 800W for fluorescent
- 30 second power-off delay
- Saves energy and improves safety
- Power to the room will active when a key card inserted
- Locator LED ideal for night operation
- Mounting box depth 47mm
- Colour coded terminals with backed-out and captive screws
- Designed and manufactured to BS EN 60669-2-1

EMKYCSG

Touch Dimmer Modules

Intelligent trailing edge dimmer suitable for LED, halogen, CFL and incandescent lamps

- Soft start, smooth dimming control and silent operation
- Overload protection
- Clearly marked terminals with backed out captive screws for easy installation
- Terminal capacity 3 x 1mm², 2 x 1.5mm² & 1 x 2.5mm²
- Manufactured to BS EN 60669-2-1
- Minimum mounting box depth 25mm

Euro Module Range Extension

Quick & Easy Installation

A flexible solution of power, data, telephone, television and audio combinations to suit the wide ranging needs of the customer.

- Select the desired combination of front plate and module(s)
- Simple installation, wire the module through the front plate aperture then push the module into place
- Modules of mains and extra low voltage rating must not be fitted to the same front plate aperture Ref. BS 7671:2008

See page 55, 56 & 57

EVOLVE

DECORATIVE WIRING ACCESSORIES

Contemporary finishes for modern interiors

A new generation of modern wiring devices, available in the latest colours and finishes.

These modern and stylish switches and sockets are the latest addition to the BG Decorative Wiring Accessory portfolio. Designed with a slim, screwless profile, this comprehensive range offers a complete solution for any domestic or commercial application. The latest innovations from BG, including fast charging Type C USB, LED touch dimmers and Wi-Fi extenders, are all included in a range that offers the widest range of colours and finishes available.

IN THE RANGE

Light Switches	66
Switched Socket Outlets	67
USB Sockets	68
Wi-Fi Extender Sockets	70
20 Amp DP Switches	71
Fused Connection Units	71
45 Amp Switches	72
Shaver Socket	73
Dimmer Switches	73
Euro-module	74
Co-Ax, Telephone & Data Outlets	75
Key Card Switch	75

BG Electrical products are guaranteed against faulty materials and workmanship for a period of 25 years, from date of delivery.

Features & Benefits

20 Amp 16AX Light Switches

- Manufactured to BS EN 60669-1
- Captive terminal screws
- Terminal capacity 4x1.0mm², 4x1.5mm², 2x2.5mm² & 1x4.0mm²
- Minimum mounting box depth – 25mm

BG SUPERFAST USB SOCKETS

45W | **22W**
Perfect for laptops | Ideal for phones

Faster, Smarter USB charging.

With USB Type-C & USB Type-A ports, utilising variable fast charging technology to protect and prolong battery life by only delivering the power a device needs.

*For more information on USB Charging Sockets see page 8.

13 Amp Double Switched Socket with Fast Charge USB A + C (22W)

- Ideal for charging smartphones, tablets, power banks and portable gaming devices
- Simultaneous charging of two devices
- Smart Charging with variable voltage - only delivers the power that your device needs, without overcharging.
- Supports PD & QC charging protocols for Android and iOS devices (when using a certified cable)
- Minimum mounting box depth 35mm - ideal for retro-fit
- Terminal Capacity 3 x 2.5mm, 3 x 4.0mm, 2 x 6mm
- Twin Earth fitted as standard - Ref. BS 7671:2008
- Manufactured to BS1363-2
- 10 Year Guarantee

Touch Dimmer Switch – Intelligent Trailing Edge

- Intelligent trailing edge dimmers have a lower minimum load than leading edge dimmers, offering greater compatibility for LED, Halogen, CFL and incandescent lamps
- Soft start brings the lights to a set level in around 1 second and extends the life of lamps
- Overload protection prevents failure if you mistakenly connect your dimmer to too many lights or transformers, and will turn the lights down or off until the load is corrected
- Smooth dimming control
- Silent operation - no noise when dimming
- Support for lower wattage lamps eliminates flicker
- Touch dimmer control
- Captive backed out terminal screws prevent screw loss
- Manufactured to BS EN 60669-2-1
- 3 x 1mm² 2 x 1.5mm² & 1 x 2.5mm²
- Minimum mounting box depth – 25mm

PCBCTDS2B

PCDBSTD1W

PCDCLTDS2W

PCDDBTDM1B

Load Rating (Max/Min per module)

- Dimmable LED 5-100W
- Tungsten/Incandescent 5-200W
- Halogen 20-200W
- Dimmable Compact Fluorescent (CFL) 5-100W

Installation Note

- Master can only be used in a one way switching circuit where one switch controls a light (or circuit) i.e. on or off.
- For two way switching, where a light (or circuit) is controlled by two switches, the master touch dimmer must be used with a secondary touch dimmer at the secondary location.
- A master touch dimmer cannot be used in combination with a traditional light switch or any other dimmer switch.

Grid Range Extension

Quick & Easy Installation

A flexible solution of power, data, telephone, television and audio combinations to suit the wide ranging needs of the customer.

- Select the desired combination of front plate and module(s)
- Simple installation, wire the module through the front plate aperture then push the module into place
- Modules of mains and extra low voltage rating must not be fitted to the same front plate aperture Ref. BS 7671:2008

See page 48, 50 & 45

Euro Module Range Extension

Quick & Easy Installation

A flexible solution of power, data, telephone, television and audio combinations to suit the wide ranging needs of the customer.

- Select the desired combination of front plate and module(s)
- Simple installation, wire the module through the front plate aperture then push the module into place
- Modules of mains and extra low voltage rating must not be fitted to the same front plate aperture Ref. BS 7671:2008

See page 54, 56 & 57

Luceco Academy Electrical Training and CPD courses are provided free of charge to everyone involved in the electrical industry.

Whether you are a student apprentice, electrical contractor, specifier, educator, or supplier ... we aim to provide a regular offering of educational content that meets the needs of all those in the industry.

"Great course content, this helped me gain a far better understanding of surge protection requirements, thanks"
W TOMLINSON . ELECTRICIAN

All CPD courses are fully accredited and each provides one credit towards annual CPD requirements.

The topics covered in our training are driven by your feedback and ideas, so please use our feedback form on our website to let us know what training content you would like to see in the future.

Flatplate Screwless Wiring Accessories

Our slimline screwless accessories are available in three stocked finishes: brushed steel, polished chrome and black nickel.

For specification projects, any finish can be created to suit the environment, for example matt black, pearl nickel, cream and antique brass. Products within the range include standard switches and sockets, USB sockets, shaver sockets, dimmer switches, double pole switches and telephone and data outlets.

Flatplate is available in four stocked finishes:

IN THE RANGE

USB Sockets	80
Switches & Sockets	81
FCUs	82
45A Switches & Sockets	83
Co-axial / Sat / Tel / Data	83
Dimmer Switches	84
Shaver Sockets	84
Blank Plates	85
Euro Module Plates	85
Key Card Switch	85
Accessories & Floor Socket	86

BG Electrical products are guaranteed against faulty materials and workmanship for a period of 25 years from date of delivery.

Features & Benefits

Integrated plastic gasket protects metal edges from moisture

Sleek flat profile

Angled in-line colour coded captive terminals

Twin Earth

No visible plastic around switches

13 Amp Single Switched Socket with Fast Charge USB A+C (18W)

- Ideal for charging smartphones, tablets, power banks and portable gaming devices
- Smart charging with variable voltage - only delivers the power that your device needs, without overcharging
- Supports PD & QC charging protocols for Android and iOS devices (when using a certified cable)
- Simultaneous charging of two devices
- Minimum mounting box depth 35mm
- Terminal Capacity 3 x 2.5mm, 3 x 4.0mm, 2 x 6mm
- Twin Earth fitted as standard - Ref. BS 7671:2008
- Manufactured to BS1363-2
- 10 Year Guarantee

16 Amp Hotel Key Card Switch

- 50 x 50mm Euro module
- Load rating – 1800W for incandescent, 800W for fluorescent
- 30 second power-off delay
- Mounting box depth 47mm
- Colour coded terminals with backed-out captive screws
- Designed and manufactured to BS EN60669-4
- Saves energy and improves safety
- Power to the room will active when a key card inserted
- Locator LED ideal for night operation

*Supplied as kit of Euro Module components

*Insert colours = White (W), Grey (G) and Black (B) at the end of the product code

Euro Module Range Extension

Quick & Easy Installation

A flexible solution of power, data, telephone, television and audio combinations to suit the wide ranging needs of the customer.

- Select the desired combination of front plate and module(s)
- Simple installation, wire the module through the front plate aperture then push the module into place
- Modules of mains and extra low voltage rating must not be fitted to the same front plate aperture Ref. BS 7671:2008

See page 55 & 57

Grid Range Extension

Quick & Easy Installation

A customisable selection of power grid modules that provide a seamless appearance with the associated wiring accessories

- Firstly, screw the grid frame to the mounting box and wire the modules
- Then slot the module on to the frame and click into place
- Finally, fit the finished plate

See page 49, 50, 45 & 47

Nexus Metal

Wiring Accessories

Nexus Metal accessories have a sleek and slim design with softly rounded corners to compliment any interior decor, and incorporate an integrated gasket to protect metal edges from moisture.

Available in five stocked finishes of brushed steel, polished chrome and black nickel.

For specification projects, BG can offer a wider selection of finishes, or if the project demands, any finish can be created to suit the requirement.

Nexus Metal is available in five stocked finishes:

IN THE RANGE

USB Sockets	90
Switches & Sockets	92
FCU's	93
20 Amp & 45 Amp Switches	94
Co-ax & Satellite	94
Telephone & Data	95

BG Electrical products are guaranteed against faulty materials and workmanship for a period of 25 years from date of delivery.

Features & Finishes

13 Amp Single Switched Socket with Fast Charge USB A + C (18W)

- Ideal for charging smartphones, tablets, power banks and portable gaming devices
- Smart charging with variable voltage - only delivers the power that your device needs, without overcharging
- Supports PD & QC charging protocols for Android and iOS devices (when using a certified cable)
- Simultaneous charging of two devices
- Minimum mounting box depth 25mm - ideal for retro-fit
- Terminal Capacity 3 x 2.5mm, 3 x 4.0mm, 2 x 6mm
- Twin Earth fitted as standard - Ref. BS 7671:2008
- Manufactured to BS1363-2
- 10 Year Guarantee

BG Electrical products are guaranteed against faulty materials and workmanship for a period of 25 years from date of delivery. *Guarantee applies to internal mechanism, not external enclosure or seals.

Features & Benefits

Large open/close paddles for easier operation, flush fit to prevent accidental damage

IP66 rated
Lockable cover

UV stable – will not crack or fade

Fast fix – no separate screws, no screw covers, 150° rotation

Patented cable entry prevents accidental opening of cover by pulling connected cables

Decorative Weatherproof Range

20 Amp 20AX Switches

- IP66 rated
- Stylish stainless steel face plate on a polycarbonate housing and black mounting box
- Hex style cover fixing screws – key supplied
- Switches manufactured to BS EN 60669-1
- Terminal capacity 4x 1.0mm², 4x 1.5mm², 2x 2.5mm² & 1x 4.0mm²
- Captive terminal screws
- Blue LED indicator that can be wired to illuminate when off or on

13 Amp RCD Protected Socket Outlet

- IP66 rated with plug in use, cover sealed
- Cuts off power safely and prevent electrocution in event of a fault
- Latching operation, socket returns to original state when power resumes
- 8 versatile entry options with M25 capability and easy push out blank plug design
- Stylish stainless steel face plate on a polycarbonate housing and black mounting box
- Switched sockets with blue LED power indicator
- Manufactured to BS 1363-2:2016+A1:2018 & BS 7288
- RCD 30mA trip current, 40ms speed
- Socket terminal capacity 3 x 2.5mm², 3 x 4.0mm² & 2 x 6.0mm²

— WEATHERPROOF WIRING ACCESSORIES —

Now even easier to install and operate:

- Fast-fix – no separate screws, no screw covers, 150° rotation
- Quick release front plate with ¼ turn fixing for easier installation
- Patented cable entry prevents accidental opening of the cover
- Redesigned paddles with smoother operation, for easier use
- Wi-Fi extender and Smart versions also available

www.bgelectrical.uk

20 Amp 20AX Switches – Slim

- IP66 rated
- Narrow weatherproof switches
- Customer configurable – switch modules can be interchanged with others from the Grid range
- Captive terminal screws
- Switches manufactured to BS EN 60669-1
- Terminal capacity 4x 1.0mm², 4x 1.5mm², 2x 2.5mm² & 1x 4.0mm²

13A Wi-Fi Extender Switched Socket Outlet

- Extend your Wi-Fi coverage to your outdoor living space
- Works with all wireless broadband routers
- Easy to install and setup with one touch WPS
- N300 Wi-Fi Technology – Up to 300Mbps data transfer speed. Single band (2.4GHz)
- Perfect for streaming music and videos or playing online games
- IP66 rated with plug in use, cover sealed
- 13A socket manufactured to BS 1363-2:2016+A1:2018
- Terminal capacity 3 x 2.5mm², 3 x 4.0mm² & 2 x 6.0mm²

WP22WR	Double, 13A, switched with Wi-Fi Extender	-	10

Smart 13A Switched Outdoor Socket

- Control and schedule power outdoors via touch, voice commands or App
- Operates using your home Wi-Fi network on 2.4GHz
- Set timer schedules, countdown function or random security options
- Compatible with Google Home, Amazon Alexa, Siri Shortcuts and IFTTT
- Ideal for operating outdoor lights and water features
- Individual socket control
- IP66 rated, seals plugs in use
- Terminal capacity 3 x 2.5mm², 3 x 4.0mm² & 2 x 6.0mm²
- Manufactured to BS1363-2

WP23L Explained

Designed to adapt

- Designed to fit large plug types, transformers, adaptors
- Adjustable socket position – top, middle, bottom (RCD not supplied)

13 Amp Time Controlled Socket

- IP66 rated with plug in use, cover sealed
- Socket manufactured to BS 1363-2
- 24 hour mechanical timer, 1 segment = 15 minutes.
- Override switch and LED power indicator
- Terminal capacity 3 x 2.5mm², 3 x 4.0mm² & 2 x 6.0mm²
- Supplied with multiple knock-out mounting box

Product Code	Description	Inner Carton	Outer Carton
WP23TM24	Time controlled, Single, 13 Amp	-	10

Outdoor Power Kit

- IP66 rated with plug in use
- Easy to install outdoor socket
- For temporary installation only
- 3m cable with prepared wires to plug
- Pre-wired double, 13A switched socket manufactured to BS 1363-2:2016+A1:2018 (socket), BS 7071 (RCD plug)
- Easy to wire RCD plug, non-latching, 30mA trip current, 40ms trip
- Terminal capacity 3 x 2.5mm² 3 x 4mm² 2 x 6.0mm²

Product Code	Description	Inner Carton	Outer Carton
WP22KIT/3	Double, 13 Amp, switched socket with 3m flex and RCD plug	-	10

Light Sensitive Outdoor Timer Switch

- IP55 rated
- Automatically switches on/off lights or other connected devices
- Settings included – Dusk-till-Dawn operation, or selected time periods to turn off after dusk – 2, 4, 6 or 8 hours
- Adjustable light sensitivity
- Max Load: 1,000 Watts – Max resistive load, 500 Watt – Max inductive load
- Adjustable light sensitivity from 3-1000 lux, with ambient light setting
- Made from a robust polycarbonate housing, long lasting and will not crack or fade in sunlight

Product Code	Description	Inner Carton	Outer Carton
WPDD	Light sensitive outdoor timer switch	10	100

13 Amp Fused Connection Unit

- IP66 rated
- FCU manufactured to BS1363-4
- Flexible membrane: allows easy switch and power status indication without compromising IP rating
- Hinged cover with fixing screw provides access to the fuse
- Angled colour coded terminals with captive screws
- 1 drill out entry 20/25mm in rear face
- Terminal capacity 3 x 2.5mm², 2 x 4.0mm² & 1 x 6.0mm²
- Multiple gland entry positions: 5 versatile entry options with M25 capability with an easy push out blank plug design

Product Code	Description	Inner Carton	Outer Carton
WP53	13 Amp with power indicator	-	10

13 Amp Fused Connection Unit with Type A RCD Protection

- IP66 rated
- RCD manufactured to BS7288.
- Latching type, 30mA trip current, 40ms trip speed
- Angled colour coded terminals with captive screws
- 1 drill out entry 20/25mm in rear face
- Flexible membrane allows switching without opening unit
- Hinged cover with fixing screw provides access to the fuse
- Visible indication of power status through see-through cover
- Terminal capacity 3 x 2.5mm², 2 x 4.0mm² & 1 x 6.0mm

Product Code	Description	Inner Carton	Outer Carton
WP55ARCD	13 Amp, RCD protection (latching)	-	10

Junction Box

- IP66 Rated
- 5 pole terminal block
- 10mm² wire capacity
- Multiple knockout – 1 on rear and three sides, 2 on one side
- Fast fix – no separate screws, no screw covers, 150° rotation
- Earth terminal in mounting box

Product Code	Description	Inner Carton	Outer Carton
WPJB	Junction box with 5 pole terminal block	-	10

Empty Enclosures

- IP66 rated when in use
- Provides the ability to self-configure to suit the application
- Suitable for all products in the Nexus Moulded, Grid, Euro Module or Nexus Metal ranges

*Not suitable for use with 20A switches and fused connection units with bottom flex outlet

Product Code	Description	Outer Carton
WP1GEC	Single	10
WP2GEC	Double	10

Metal Clad

Wiring Accessories

Metal Clad wiring accessories are made from a rugged scratch resistant steel with a durable powder coated finish, ideal for use in commercial and industrial environments.

The range comprises 10AX switches, 13 Amp sockets, fused connection units and RCD protection. All accessories are supplied with a multiple knock-out metal box, making them extremely versatile accommodating a variety of wiring routes

IN THE RANGE

USB Sockets	112
Switches & Sockets	113
RCD Protection	113
45 Amp Switches	114
20 Amp Switches	114
FCU's	115
Blank & Euro Modules	115
Telephone & Data Outlets	115
Key Controlled Socket	116
Surface Mounting Boxes	116

BG Electrical products are guaranteed against faulty materials and workmanship for a period of 25 years from date of delivery.

Features & Benefits

13 Amp Switched Socket with Fast Charge USB A + C (22W)

- Ideal for charging smartphones, tablets, power banks and portable gaming devices
- Smart charging with variable voltage - only delivers the power that your device needs, without overcharging
- Supports PD & QC charging protocols for Android and iOS devices (when using a certified cable)
- Power shared across two ports
- Twin earth fitted as standard
- Terminal capacity 3x 2.5mm², 3x 4.0mm² & 2x 6.0mm²
- 10 year guarantee

Euro Module Range Extension

Quick & Easy Installation

A flexible solution of power, data, telephone, television and audio combinations to suit the wide ranging needs of the customer.

- Select the desired combination of front plate and module(s)
- Simple installation, wire the module through the front plate aperture then click the module into place
- Modules of mains and extra low voltage rating must not be fitted to the same front plate aperture Ref. BS 7671:2008

See page 53 & 56

Front Plate

Features & Finishes

Junction Boxes

Metal Boxes

Accessories

Junction Boxes – Selective Entry

- Manufactured to BS EN 60670
- Selective entries indicated by numbers and symbols on rotating cover
- Moulded in brown or white urea
- Rear entry knockouts in base to facilitate ease of wiring
- Suitable for unbroken ring wire installations
- Lower lip of entries can easily be knocked out to take twin cables
- Robust, generous capacity slot terminals with large grub screws

606 Internal View

HGS07/C4	4 x double, 47mm deep – combination plate	-	10
HGS08	Dual 35mm deep	5	50
HGS68	Double metal box (6g + 8g Grid)	5	25
HGS912	Triple metal box (9g + 12g Grid)	5	25

Fire Rated Dry Lining Boxes

- Fire rated back box with intumescent pad
- Spring loaded adjustable lugs for the perfect fit
- M20 knockouts in top, bottom and base for versatility
- Fitted with earth terminal in the base
- Complies with Part B (Fire) and Part E (Sound) Building Regulations
- Fire-Rated to BS EN 1364-1 for up-to 120 minutes
- Airborne Sound Insulation Tested: 54dB to ISO 10140-2: 2021

Twin & Earth Cable Clips

- For fast installations of cables
- Made from impact resistant UV stabilised polypropylene
- Can withstand high impact together with extremes of heat, cold and acid
- Safety nail bends before breaking – hardened and zinc coated
- Temperature range -40°C to +80°C

Product Code	Description	Colour	Pack Quantity	Inner Carton	Outer Carton
CCF1/50	Twin and Earth Cable Clips – 1mm	Grey	50	10	100
CCF1.5/50	Twin and Earth Cable Clips – 1.5mm	Grey	50	10	100
CCF2.5/50	Twin and Earth Cable Clips – 2.5mm	Grey	50	10	100
CCF4/50	Twin and Earth Cable Clips – 4mm	Grey	50	10	100

EITBR20/1	19mm x 20m Reel	Brown	10	100

Cable Glands

- All glands/grommets satisfy IP4X (minimum requirement as per NICEIC Guidelines for all cable entry and exit on horizontal planes)
- Tails glands allow 2 x tails and 1 x earth cable to enter one single entry, whilst being individually sealed
- Both plastic and brass glands acceptable, due to no set regulation on cable entry
- Cable retention, negates requirement for additional tails clamp
- Earth cable entry can be easily blanked
- All products are self-extinguishing
- Glands are vibration resistant
- Halogen free material
- No eddy currents

*Ideal for use with metal consumer units, see page 149

Fire Safety Smoke, Heat, CO Alarms

Most fires at home start accidentally – and the effects can be devastating. A fire detection system provides an early warning – and time to escape – that really does save lives.

The British General range of alarms includes interconnected alarms for whole home coverage, and battery-operated alarms which operate independently. All alarms are third party approved and certified to relevant European standards to ensure peace of mind for both the installer and end user.

This range includes optical smoke alarms, heat alarms and CO alarms, offering a solution for various locations around your home for fast and effective detection of fire and dangerous levels of carbon monoxide.

IN THE RANGE

Mains Optical Smoke Alarm	131
Mains Heat Alarm	131
Mains CO Alarm	131
Battery Optical Smoke Alarm	132
Battery CO Alarm	133

BG Electrical products are guaranteed against faulty materials for a period of 10 years from date of delivery.

Features & Benefits

Battery operated or battery back up

Designed for ease of installation

Test and hush function

Mains operated inconnecting alarms

85dB(A) at 3 metres

Mains alarms BSI Kitemarked approved

What alarms do landlords need to install?

Every private rented property needs to be fitted with smoke alarms and carbon monoxide alarms (if applicable). On 1 October 2022, the regulations are being extended to cover social housing.

What type of alarm is required?

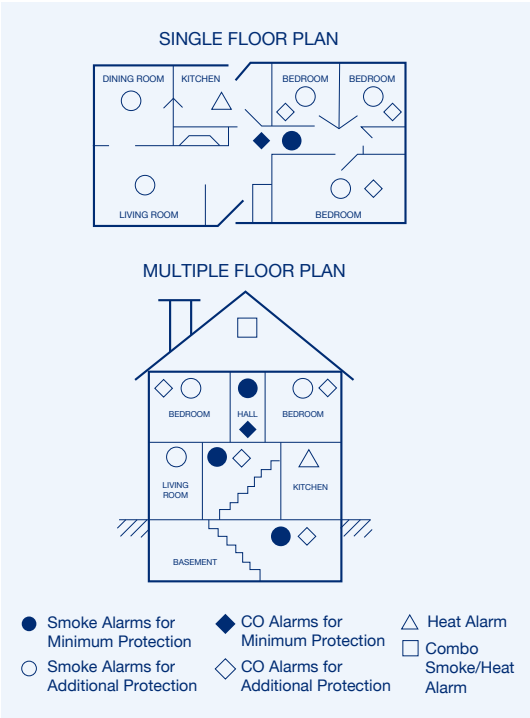

The regulations do not stipulate the type of alarms (such as main powered or battery powered), however where a battery powered option is selected, alarms with ‘sealed for life’ batteries rather than alarms with replaceable batteries are a better option.

At least one smoke alarm should be installed on every storey which is used in living accommodation. In general smoke alarms should be fixed to a ceiling in a circulation space i.e. a hall or landing.

A carbon monoxide alarm should be installed in every room which is used as living accommodation containing a fixed combustion appliance (excluding gas cookers).

Landlords should follow the individual manufacturer's instructions when installing the alarms. However, in general, carbon monoxide alarms should be positioned at head height, either on a wall or shelf, approximately 1-3 metres away from a potential source of carbon monoxide.

Fitting a heat alarm in your kitchen will give you warning of an increase in temperature caused by a fire but will not be set off by cooking fumes, therefore reducing the risk of false alarms.

Interconnected alarms

When smoke and carbon monoxide (CO) alarms are interconnected, each alarm can now tell you when there's smoke or carbon monoxide in any room that has a smoke/CO alarm. A traditional alarm can alert you to the presence of smoke, fire or carbon monoxide, but it can only detect the area around it.

Interconnected alarms are safer

From February 2022 every home in Scotland must have interconnected fire alarms, and there should be adequate carbon monoxide protection. Interconnected means if one goes off, they all go off, so you will always hear an alarm wherever you are in your home. Interconnected smoke alarms are safer than standalone smoke alarms, because they let you know about an emergency sooner. Even if you're in the house, you may not be close to the area where the fire started.

SAFETY WARNING: Wiring should be in accordance with the latest edition of the IET regulations (BS 7671)

Smoke alarm requirements in lofts

Interlinked alarms: Smoke alarms in a loft should be connected to other alarms in the house to ensure a coordinated alert in case of fire.

Mains powered: It is recommended to use mains-powered smoke alarms for reliability.

Placement: Position the smoke alarm in a central location within the loft space, ideally in a circulation area like a hallway.

Consider multi-sensor alarms: For optimal detection, a multi-sensor alarm that detects both smoke and heat may be suitable for a loft.

Mains Optical Smoke Alarm

The BG mains powered optical smoke alarm is ideal for detecting smoke from smouldering fires whilst minimising false alarms. This alarm can be interconnected with the wider range of BG interconnected alarms for complete coverage.

- Hard-wired optical smoke alarm wires directly into your home electric system
- Constant monitoring of the air for the presence of smoke
- Interconnecting: connect up to 24 heat and smoke alarms, or up to 12 alarms when including a CO alarm
- Dust cover (included) prevents contamination of the device during installation
- 9V battery backup (battery included) ensures the alarm will operate if mains power is lost
- Hush function allows the alarm to be temporarily silenced
- Test function, fault, and low battery warnings to assist with alarm maintenance
- Alarm volume 85dB(A) at 3m
- Class 2 alarm
- Certified to BS EN 14604:2005/AC:2001, BSI Kitemark number KM 762034
- UKCA and CE certified
- 10-year product lifetime

Product Code	Description	Inner Carton	Outer Carton
SDMOA	Mains optical alarm	6	48

SDMOA

KM 762034

Mains Heat Alarm

The BG mains powered heat alarm is ideal for use in kitchens and other rooms where smoke or steam may be present, and will alert you if there is a significant rise in temperature which may indicate a fire is about to break out. This alarm can be interconnected with the wider range of BG interconnected alarms for complete coverage.

- Hard-wired heat alarm wires directly into your home electric system
- Interconnecting: connect up to 24 heat and smoke alarms, or up to 12 alarms when including a CO alarm
- Dust cover (included) prevents contamination of the device during installation
- 9V battery backup (battery included) ensures the alarm will operate if mains power is lost
- Hush function allows the alarm to be temporarily silenced
- Test function, fault, and low battery warnings to assist with alarm maintenance
- Alarm volume 85dB(A) at 3m
- Class 2 alarm
- Certified to BS 5446-2:2003, BSI Kitemark number KM 645618
- UKCA and CE certified
- 10-year product lifetime

Product Code	Description	Inner Carton	Outer Carton

Mains Carbon Monoxide Alarm

The BG mains powered CO alarm is designed to detect carbon monoxide gas from any source of combustion and will alert you when it detects dangerous levels of CO in the air. This alarm can be interconnected with the wider range of BG interconnected alarms for complete coverage.

- Hard-wired CO alarm wires directly in to your home electric system
- Interconnecting: connect up to 12 alarms
- Dust cover (included) prevents contamination of the device during installation
- 9V battery back up ensures the alarm will operate if mains power is lost
- Hush function allows the alarm to be temporarily silenced
- Test function, fault and low battery warnings to assist with alarm maintenance
- Supplied with base for straight forward installation
- Alarm volume 85dB(A) at 3m
- Type A alarm
- Certified to BS EN 50291-1:2018, BSI Kitemark number KM 616830
- UKCA and CE certified
- 10-year product lifetime

Product Code	Description	Inner Carton	Outer Carton
SDMCO	Mains carbon monoxide alarm	6	48

SDMCO

Mains Combo Smoke/Heat Alarm

This BG Combination Smoke & Heat alarms is ideal for use in loft or attic spaces, and is less prone to false alarms in dusty environments vs. a stand alone smoke alarm. Recommended for use in spaces where photovoltaic installation invertors are fitted. This alarm can be interconnected with the wider range of BG interconnected alarms for complete coverage, and can be tested and silenced remotely when paired with an SDMREM wireless remote.

- Hardwired alarm with 10 year lithium sealed in back-up battery
- Wireless RF feature allows you to silence and test the alarm remotely using the SDMREM wireless remote
- Interconnecting: connect up to 24 heat and smoke alarms, or up to 12 alarms when including a CO alarm from the BG Interconnected alarms range
- Colour coded terminals for straight forward installation
- Dust cover (included) prevents contamination of the device during installation
- Certified to BS 5446-2:2003 and EN 14604:2005+AC:2008, third party tested and approved by TUV
- 10 year guarantee

SDMHOA

Product Code	Description	Inner Carton	Outer Carton
SDMHOA	Mains combo smoke/heat alarm	6	48

Wireless Remote for Combo Smoke/Heat Alarm

This BG wireless controlled is designed for use with BG SDMHOA Combination smoke and heat alarms.

- Ideal for testing and silencing the alarm remotely when installed in areas that are difficult to access such as the loft or attic.
- Requires 2 x AA batteries (supplied)
- Mounting bracket allows wall mounting
- Pairs with the alarm using 868MHz wireless frequency
- 100m open air range
- Connect with up to 48 combo smoke/heat alarms
- Complies with 2014/53/EU standards
- 10 year guarantee

SDMREM

Product Code	Description	Inner Carton	Outer Carton
SDMREM	Wireless Remote for combo smoke/heat alarms	12	96

Battery Optical Smoke Alarm

The BG battery operated optical smoke alarm is ideal for detecting smoke from smouldering fires whilst minimising false alarms.

- Constant monitoring of the air for the presence of smoke
- Low battery mode warns you when the alarm needs replacing
- Suitable for ceiling or wall mounting
- Hush function allows the alarm to be temporarily silenced
- Test and false alarm functions
- Sealed in lithium battery
- Alarm volume 85dB(A) at 3m
- Certified to BS EN 14604:2005
- UKCA and CE certified
- 10-year product lifetime

SDLLSM

Product Code	Description	Inner Carton	Outer Carton
SDLLSM	Battery optical smoke alarms	6	48

Battery CO Alarm

The BG battery operated CO alarm will detect carbon monoxide gas from any source of combustion and will alert you when it detects dangerous levels of CO in the air.

- Low battery mode warns you when the alarm needs replacing
- Suitable for wall mounting
- Hush function allows the alarm to be temporarily silenced
- Test and false alarm functions
- 2 x AA Batteries (included)
- Type B alarm
- Alarm volume 85dB(A) at 3m
- Certified to BS EN 50291-1:2018 and EN 50291-1:2018
- UKCA and CE certified
- 10-year product lifetime

Ceiling & Lighting Accessories

High quality and robust accessories offering durability, reliability and ease of installation.

Our products combine modern styling with ease of use for installers, and are manufactured to high quality and reliability standards. The extensive range includes; ceiling roses, pendant sets, batten holders and fluorescent starters and all the technical information.

IN THE RANGE

Ceiling Roses	136
Pendant Sets	136
Batten Holders	136
Ceiling Switches	137
Lamp Holders	137
Luminaire Connectors	138
Fluorescent Starters	138

BG Electrical products are guaranteed against faulty materials and workmanship for a period of 25 years from date of delivery.

Features & Finishes

Ceiling
Switches

Fluorescent
Starters

Lamp Holders
& Pendants

Ceiling Roses

- Large capacity earth terminal with locking terminal screw
- Eight "in-line" terminals all with captive screws
- Wiring aperture in base with extra knockout for ease of wiring
- Spin-on cover with smooth cable entry for maximum protection of pendant conductor insulation
- Large capacity earth terminal with locking terminal screw
- Base moulded in clear polycarbonate
- Cover moulded in satin finish urea
- Manufactured to BS67

Product Code	Description	Inner Carton	Outer Carton
561	3.5" diameter	10	100
661	3" diameter	10	100

Pendant Sets (T2)

- Large capacity earth terminal with locking terminal screw
- Wiring aperture in base with extra knockout for ease of wiring
- 0.75mm pendant flex heat resistant to BS6141
- Spin-on cover with smooth cable entry for maximum protection of pendant conductor insulation
- Eight "in-line" terminals all with captive screws
- Manufactured to BS67 and BS EN 60598-2-1

Product Code	Description	Inner Carton	Outer Carton
566	6" flex and 3.5" base	10	100
569	9" flex and 3.5" base	10	100
666	6" flex and 3" base	10	100
666DC	6" pendant set with decorators cover	10	100
669	9" flex and 3" base	10	100
6612	12" flex and 3" base	10	100

Batten Holders Enclosed (T2)

- Large capacity earth terminal with locking terminal screw
- Diameter of batten lampholder is 80mm (3")
- T2 temperature rated
- Wiring aperture in base with extra knockout for ease of wiring
- Wired with heat resistant wire
- Base cover can be removed without removing HO skirt
- Manufactured to BS EN 61184

Product Code	Description	Inner Carton	Outer Carton
763	2 terminal body, 3 terminals + earth in base, PVC tails, HO skirt	10	100
767	2 terminal body angled, 3 terminals + earth in base and PVC tails, HO skirt	10	100

Batten Holders (T2)

- Manufactured to BS EN 61184
- Knock-outs to allow for surface wiring
- 3 Terminals
- For B22 bayonet cap lamps

Product Code	Description	Inner Carton	Outer Carton
752	3 terminals with short skirt	10	100
753	3 terminals with HO skirt	10	100
747	3 terminal angled with HO skirt	10	100
748	3 terminal angled with short skirt	10	100

Ceiling Switches

- Supplied with approximately 1.5 metres of cord
- Individually bagged
- Manufactured to BS EN 60669-01

Product Code	Description	Inner Carton	Outer Carton
801	6 Amp 1 way	10	100
802	6 Amp 2 way	10	100
803	45 Amp double pole with power indicator	10	100
804	10 Amp triple pole fan isolator	10	100
801PC	Replacement pull cord, 1.5m	20	200

Decorative Ceiling Roses and Switches

- Supplied with approximately 1.5 metres of cord
- Individually bagged
- Manufactured to BS EN 60669-01

Product Code	Description	Inner Carton	Outer Carton
802CH	6 Amp 2 way ceiling switch chrome finish	5	50
802ST	6 Amp 2 way ceiling switch steel finish	5	50
661CH	Chrome finish cover with polycarbonate 3" diameter base	5	50
661ST	Steel finish cover with polycarbonate 3" diameter base	5	50

Lamp Holders – Heat Resistant (T2)

- Moulded in robust fully insulating plastic
- Positive cord-grip
- Manufactured to BS EN 61184
- 2A at 250V AC

Product Code	Description	Inner Carton	Outer Carton
720	Cord grip with short skirt	20	20
721	Cord grip with HO skirt	20	20
725	1/2"/12.6mm 26 BSB threaded entry with short skirt	20	20
252	Pushbar lamp holder switched 1/2" 26 BSB with threaded entry and short skirt	20	20
7369	HO skirt	100	1000

Pendant Set – Edison Screw

- Large capacity earth terminal with locking terminal screw
- Wiring aperture in the base with extra knockout for ease of wiring
- Base incorporates L, N and loop-in terminals with 8 individual cable entries and captive screws
- Spin-on-cover with smooth cable entry for maximum protection of pendant conductor insulation
- Alternative fixing holes allow for off centre mounting
- 0.75mm² two core circular cable
- Lamp holder pre-wired to cable ready to be fitted to ceiling rose
- 6"/15cm flex & 3"/80mm diameter base

Product Code	Description	Inner Carton	Outer Carton
666ES14	Pendant set – E14 Edison screw	10	100
666ES27	Pendant set – E27 Edison screw	10	100

Luminaire Support Connector

- The 6A plug-in ceiling rose offers a pluggable connection for luminaires
- The luminaire can be connected and disconnected under load
- Plug and sockets have 4 terminations for live, neutral, earth and loop-in
- Supports up to 5kg load
- Moulded in durable PC matt plastic material
- Cables have prepared ends

Product Code	Description	Inner Carton	Outer Carton
LSC4PA/4C2	Luminaire support connector 4 pin plug + socket 2M 4C 0.75mm cable	10	100
LSC4PA/4C3	Luminaire support connector 4 pin plug + socket 3M 4C 0.75mm cable	10	100
LSC4PA	Luminaire support connector 4 pin plug + socket assembly	10	100
LSCPLG/RD	Luminaire support connector 4 pin plug – red	10	100
LSCPLG	Luminaire support connector 4 pin plug	10	100

Fluorescent Starters

- Manufactured to BS EN 60155
- All starters are kite marked

Product Code	Description	Inner Carton	Outer Carton
FSU	4-80 Watt	10	100
FS2	4-22 Watt single series	10	100
FS125	70, 75, 80, 85, 100-125 Watt	10	100

— WEATHERPROOF WIRING ACCESSORIES —

BG Weatherproof Range

The preferred choice of the nation's contractors for over 10 years

An evolution in weatherproof switches & sockets

The best just got better...

Now even easier to install and operate

- Fast-fix – no separate screws, no screw covers, 150° rotation
- Quick release socket plate with ¼ turn fixing for easier installation
- Patented cable entry prevents accidental opening of the cover
- Redesigned paddles with smoother operation, for easier use
- Additional sealant channels to prevent water ingress
- Improved internal seals over fixing points

FLEXIBLE INSTALLATION.
 SUPERIOR PROTECTION.

The BG Circuit Protection range has been developed for fast and flexible, professional installations.

Featuring two rows of large rear knockouts and the option of perforated grommet strip or quadrant clip in cable protector, BG consumer unit offers flexible cable management. Additionally, a single module SPD creates an extra usable way in the board, all contributing to a quick and professional installation.

DESIGNED WITH CONTRACTORS,
 FOR CONTRACTORS.

At BG, we understand the importance of our products to our customers, however we are aware the installation plays a key part to this. On this basis, we design products that consider the installation contractor, collaborating with those that know the product best.

We have worked closely with contractors, holding dedicated focus groups to understand the everyday challenges during installation. Whether it's managing tight spaces, ensuring easy cable routing, or achieving a neat professional finish, the feedback received is the foundation of our products.

During development we engaged with contractor forums to ensure the design and development delivers a solution that is right for the contractor and the consumer.

BESPOKE BUILD SERVICE
 TAILORED SOLUTIONS FOR
 COMPLEX PROJECTS.

At BG, we understand that not every project is a standard solution. That's why we offer our Bespoke Build Service, designed for specifiers, contractors, and electricians handling complex electrical installations. Whether you're working on high-end residential properties, large commercial developments, or specialist industrial sites, our tailored approach ensures you get the perfect custom-configured board to meet your exact requirements.

Why Choose BG's Bespoke Build Service?

- Customised Solutions – We build to your exact specifications, ensuring the perfect fit for your project
- Seamless Integration – Designed for effortless installation and compatibility with existing systems
- Quality You Can Trust – Precision-engineered boards built for reliability and performance

Get the Perfect Fit for Your Next Project

Dedicated Technical team to answer installation and configuration questions.

Key Features

Single Module Type 2 SPD

Meter Tails Cable Clamp

Lid Retainer

Raised Removeable DIN Rail

Clip-in Cable Protector

Backed out and retained combi-style terminal screws

Key Features

THE IMPORTANCE OF THE CONSUMER UNIT IN THE HOME.

The First Line of Electrical Protection

The consumer unit is the heart of every home's electrical system, managing and protecting every circuit. From ensuring continuous power to safeguarding lives, a properly specified and installed consumer unit is critical for safety, reliability, and compliance.

Why is the right consumer unit so important?

Protects Against Electrical Faults – Prevents overloads, short circuits, and earth faults, reducing risk to both occupants and property.

Reduces Fire Hazards – Advanced devices like AFDDs and SPDs help prevent electrical fires and mitigate power surges.

Ensures Compliance & Safety – RCDs and RCBOs provide rapid disconnection, meeting BS 7671 Wiring Regulations and protecting against electric shocks.

Future-Ready Performance – Supports modern demands, including EV charging, home automation, and renewable energy integration.

Adaptable solutions – For home alterations where additional circuits maybe needed, by choosing the correct consumer unit with additional spare capacity allows for expansion capabilities.

Deliver Safety & Compliance with Every Installation

Upgrading or installing a fully compliant consumer unit ensures your clients' homes meet the latest safety standards, offering them peace of mind and long-term reliability. Stay ahead of regulations and provide the best protection for your customers. Choose high-performance BG Circuit Protection for every project.

Main Switch Consumer Unit

Effortless control and maximum protection. This unit features a main switch that connects and disconnects both the live and neutral poles. Typically, these units are populated with RCBO and AFDD devices to supply outgoing circuits. These protection devices will provide overcurrent and earth leakage fault detection to each individual circuit eliminating the need for additional RCD's to be fitted.

Compact Design: Smaller enclosures are possible by using single module RCBO and AFDD devices.

18TH EDITION
AMD3

RCD Incomer Consumer Unit

Tailored for smaller, focused installations. This unit's main RCD acts as both the incomer and isolator, making it ideal for secondary installations. With local RCD protection built-in, only MCBs are needed for outgoing circuit overload protection.

However earth leakage should be considered when installing these types of enclosures as all circuits will run through one Residual Current Device (RCD).

18TH EDITION
AMD3

Dual RCD Consumer Unit

The perfect blend of versatility and value. This unit starts with a main switch that powers two separate RCD devices, each supplying multiple individual circuits. With built-in RCD protection, circuits are protected by MCB's to handle current overload and short circuit. Optional surge protection boosts its safety profile, and high-integrity configurations ensure critical devices remain unprotected by the RCDs when needed.

Best For: Larger setups with multiple circuits, especially when budget matters. However earth leakage needs to be considered as multiple circuits will be taken through one of the two RCD devices.

18TH EDITION
AMD3

Product	Description
Consumer Units/Enclosures	Manufactured from 1.2mm steel and finished in powder coated high gloss finish paint, 100A Max load capacity
Plastic Enclosures/Enclosures	Manufactured from ABS or Polycarbonate, available in IP20 or IP66, 100A Max load capacity
Main Switch	100A double pole, 2 module, for isolation of the incoming supply to the consumer Unit
RCD Type A 30mA	40A, 63A, 80A & 100A double pole, 2 module, bidirectional RCD for isolation of supply and protection of earth leakage faults
RCD Type B 30mA	63A double pole, 2 module, bidirectional RCD for isolation of supply and protection of earth leakage faults and specific for use on PV
MCB	6A - 55A single pole, 1 module, bidirectional MCB B & C curve for general circuits with overload and short circuit protection
RCBO Compact Type A 30mA	6A - 40A unidirectional, single pole, 1 module, RCBO B & C curve for general circuits with overload, short circuit and earth leakage protection
RCBO Tall Type A 30mA	45A - 55A unidirectional, single pole, 1 module, RCBO B & C curve for general circuits with overload, short circuit and earth leakage protection
RCBO Compact Type A 30mA Bidirectional Double Pole	6A - 40A bidirectional double pole, 1 module, RCBO B & C curve for general circuits with overload, short circuit and earth leakage protection
RCBO Compact Type F 30mA Bidirectional Double Pole	16A - 40A bidirectional double pole, 2 module RCBO C curve for applications with variable speed drives and variable high frequencies occur with overload, short circuit and earth leakage protection
AFDD Tall 30mA Unidirectional	45A - 55A unidirectional, single pole, 1 module, AFDD for general circuits with overload, short circuit and earth leakage
SPD Type 2	40kA max discharge, 1 module, giving protection against transient overvoltages and protecting the electrical installation from damage
Contactors - Normally Open contacts	20A 1 module and 40A 2 module, 230V coil, for controlling lighting loads, heating or ventilation systems
Bell Transformer	2 module design, for use with mains powered door bells, steps down voltage from 240V AC to 8V AC
Digital Timers	2 module design 230V with 1 or 2 channel application with 7 day function and manual override function
Analogue timer	3 module design 230V with single channel operation application 24 hour function and manual override function
Time Delay Switch	1 module design 230V with 30 second to 20 minute count down period and manual override function

BG Guarantee

BG Electrical Circuit Protection products are guaranteed against faulty materials and workmanship for a period of 10 years from date of delivery.

Products will be repaired or (at BG Electrical's discretion) replacements will be supplied or (at BG Electrical's discretion) a credit note will be issued. This guarantee is subject to BG Electrical's conditions of sale and in particular to the following conditions being met.

- Notification of any defect is given as soon as reasonably practicable after becoming apparent, and the products then returned to BG Electrical.
- The products have only been operated under normal operating conditions and have only been subject to normal use.
- No work (other than normal and proper maintenance) has been carried out to the products without BG Electrical's prior written consent.
- The products have been assembled, or incorporated into other goods, by a qualified and recognised electrician and only in accordance with any instructions issued by BG Electrical.
- The defect has not arisen from an item manufactured or supplied by a person other than BG Electrical.

This guarantee does not affect any customer statutory rights. All components used in a BG Electrical enclosure, must be supplied by BG Electrical. The use of any other components will negate compliance to BS 61439 and the BG Electrical guarantee. Failure to fit the enclosure in accordance with these instructions will invalidate the guarantee.

Main Switch Consumer Units

Double pole isolation ready for MCB & RCBO circuits.

- Main Switch Consumer Unit supplied with 100A Isolator
- Available with type 2 SPD
- Each consumer unit supplied with spare cover blanks
- Lockable covers also available, see accessories section
- Can be configured to circuit requirements using BG wiring kits and devices

Note: Split load configurations, can be created using Main Switch Consumer Unit, RCD and cable kit CUA05.

Recessed Consumer Units

Stylish design, curved profile

Hi-integrity as standard for Dual RCD consumer units

Easy cable entry and exit using the 35 x 90mm oval knockouts provided

Ability to customise with lockable accessories

Slim profile, space saving design

Durable, long lasting powder coated Gloss White finish

Combi style screws for one-tool installation

Backed out & retained terminal screws

Integrated spirit level, for quicker installation

Large terminal screws giving positive torque and cable retention

Grommet strip and cable protector supplied for rear knockouts

Sleek, low-profile design with rounded edges for a discreet finish

Offset incomm for additional space for main incoming cables

Recessed Main Switch Consumer Units

This Main Switch Consumer unit offers the ideal solution for narrow passages or walkways, ideally suited for locations where the consumer unit needs to be discreet, such as open plan spaces. Available in Main Switch/RCD, Dual RCD, in Populated and Unpopulated versions.

- Fully recessed for low intrusion
- Available with type 2 SPD
- 68mm depth into wall cavity
- Supplied with the option to add a cover lock- lock available separately, see accessories section

CFFSW18SPD	22	18	100A	Y	IP20	4

Recessed Dual RCD Consumer Units

Recessed Dual RCD allows the installer to split the consumers power needs across two 30mA Type A RCD's, for example lighting and power circuits. Dual RCD units supplied with Hi-integrity as standard designed to provide maximum flexibility for protected and unprotected circuits

- Supplied complete with MCBs fitted, see table
- Fully recessed for low intrusion
- Available with type 2 SPD
- 68mm depth into wall cavity, supplied with spare cover blanks
- Supplied with the option to add a cover lock- lock available separately, see accessories section

Dual Row Consumer Units

- Dual row with double pole isolation ready for MCB & RCBO circuits.
- Type 2 surge protection as standard
 - 100A Main Switch is located on top row, but can be repositioned to the lower row with CUA31 cable kit
 - Gives the ability to be standard, dual tariff or bespoke configured to support both electrification and pro-sumer applications
 - 36 and 48 module size options
 - Suitable for large domestic and light commercial applications

EV Consumer Units

The perfect solution for EV installations

- With both metal and high quality UV stable plastic options, rated from IP20 through to IP66 guaranteed to provide exceptional protection
- Designed for ease of installation and available in 3 pre-configured solutions, each fitted with Type A bidirectional devices
- Rigorously tested and backed by a 10-year guarantee for peace of mind
- Protection devices tested to -25°C operation
- Devices tested to pollution degree 3, making them suitable for external application in IP65/66 enclosures
- Experience unmatched durability, versatility and ease of installation

Enclosures

Main Switch Isolator Enclosure

- Allows the power to be isolated easily without removing the main fuse
- Two part cover to isolate the incoming terminals
- Safety screw allowing wire seal to secure bottom cover
- Populated with 100A Main Switch (CUSW100)

Product Code	Modules	Ways	Main Switch	IP
CUEMS1	2	2	100A	20

Fuse Switch

Can be used for safe isolation of the incoming electrical supply, and as a midpoint isolation unit if the Consumer Unit is more than 3m away from the intake fuse position. Comes with 100A, 80A & 63A fuses. Manufactured in a metal non combustible enclosure, suitable for internal installation.

Product Code	Modules	Main Switch	IP
CFUFS100	4	100A	20

Product Code	Description
CFUFH100	100A DIN rail mounted fuse holder to suit 22mm x 58mm cartridge fuses, for use in CFUFS100 Fuse Switch
CUF100	100A 22mm x 58mm cartridge fuse, for use with CFUFH100 fuse holder
CUF80	80A 22mm x 58mm cartridge fuse, for use with CFUFH100 fuse holder
CUF63	63A 22mm x 58mm cartridge fuse, for use with CFUFH100 fuse holder

Connector Block

Product Code	Description
CB100L1	Live Phase 1 - Brown

CUA26/10

Consumer Unit Stand Off Mounts
CUA29

Consumer Unit Tails Clamp
CUA28

Product Code	Description
CUA01	Consumer unit cover blanks to fill unused ways (pack of 10)
CUA02	21 way copper fork busbar (can be easily cut to size)
CUA03	21 way bus bar shield (can be cut to size)
CUA05	Cable kit, with neutral and live cables, terminal bar, fixing clips and spare labels (can be used to convert main switch to a split load consumer unit)
CUA11	Spare label sheet for consumer unit (pack of 5)
CUA15	Barrel lock to suit consumer unit front covers
CFA16	Metal bung to cover barrel lock hole (front cover)
CUA17	Lid retainer, for keeping the consumer unit front cover in the open position
CUA19	Device style blank, 1 module, fills unused ways in consumer unit
CUA26/10	Consumer unit clip in cable protector, for rear knockout cable management and preventing cable chafing (pack of 10)
CUA27	Heavy duty grommet strip, for additional protection against cable chafing (5M roll)
CUA28	Consumer unit tails clamp, for securing incoming mains tails for termination inside the consumer unit
CUA29	Consumer unit stand-off mounts (1 x pair), with simple magnetic fit to the rear of the unit for a fast fit, allowing surface trunking to be used giving full access from all sides to the rear of the unit, fits all module size BG surface mount consumer units
CUA30	SPD wiring kit (no MCB) with neutral & Earth wires and type 2 SPD to fit into BG consumer units for new or retrofit installations
CUA31	Main switch relocater kit, for use in 2 row consumer unit to reposition the main switch to the bottom row

Lockable Covers

- Replacement cover for surface mount consumer units, allows front cover to be locked in the closed position
- Complete with barrel lock fitted

Product Code	Description
CFUA19	6 Module lockable cover
CFUA20	9 Module lockable cover
CFUA21	12 Module lockable cover
CFUA22	16 Module lockable cover
CFUA23	19 Module lockable cover
CFUA24	22 Module lockable cover

Cable Glands

- Both plastic and brass glands acceptable, due to no set regulation on cable entry
- Tails glands allow 2 x tails and 1 x earth cable to enter one single entry, whilst being individually sealed
- No eddy currents
- Earth cable entry can be easily blanked
- All glands/grommets satisfy IP4X (minimum requirement as per NICEIC guidelines for all cable entry and exit on horizontal planes)
- Cable retention, negates requirement for additional tails clamp
- All products are self-extinguishing
- Glands are vibration resistant
- Halogen free material
- Individually bagged

Insert Options

Devices

SPD

Type 2 Surge Protection Device

Designed to limit transient overvoltage's, diverting the surge current to earth, limiting potential damage to any connected electrical equipment and electrical wiring.

Suitable For:

- Ensuring longevity of home appliances, entertainment systems, and smart home devices
- Protecting sensitive electronic equipment, IT networks, server rooms, and security systems
- Protects the internal/external wiring infrastructure of the building
- Reduces the risk of electric shock hazards due to overvoltages

AFDD

Arc Fault Detection Device

A combined AFDD and RCBO which is extremely effective against fires which may be caused by electrical arcing faults, and with the addition of overload/short circuit & earth leakage protection of an electrical circuit.

Suitable For:

- Older homes, loft conversions, and concealed wiring installations
- Hotels, hospitals, schools, and care homes where fire prevention is critical
- Timber-structured buildings, like Log cabins, heritage sites, and wooden-framed buildings where fire risks are higher
- Mandatory for
 - 1: Higher risk residential buildings (HRRB)
 - 2: Houses in Multiple Occupation (HMO)
 - 3: Purpose built student accommodation
 - 4: Care homes

RCBO

Residual Current Circuit Breaker with Overcurrent Protection

A combined MCB and RCD offering overload/short circuit & earth leakage protection of an electrical circuit. Available in unidirectional and bidirectional format.

Suitable For:

- Dedicated protection for circuits like kitchen appliances, EV chargers, and bathroom circuits
- Offices, retail spaces, and workshops where fault isolation per circuit is important

RCD

Residual Current Device

A lifesaving device to prevent fatal electric shocks by monitoring the current flowing through one or more electrical circuits.

Suitable For:

- General protection for multiple circuits in homes
- Power sockets for gardens, outdoor lighting, and hot tubs
- Available in Type A & B Types

MCB

Miniature Circuit Breaker

A small trip switch operated by overload/short circuit of an electrical circuit.

Suitable For:

- Protecting lighting, socket outlets, and appliance circuits in residential homes
- Ensuring stable power distribution in offices, restaurants, and shops

Main Switch

100A

A switch for the safe isolation of the incoming supply to the consumer unit and it's electrical circuits.

Suitable For:

- Enabling complete power isolation in homes during maintenance or emergencies
- Can be used for safe isolation of specific single-phase circuits up to 100A

Main Switch – Isolator

- Double Pole
- Bidirectional
- BS7671
- Positive contact status indicator
- Device capable of being locked in 'off' position using a device lock

PV
Safe
Integration

Designed for Solar Success

With the rising demand for solar energy, **BG Electrical** is at the forefront, offering circuit protection to support the seamless integration of **Photovoltaic (PV) Systems** into residential electrical setups. Our **BG Circuit Protection** devices and enclosures ensure safe, compliant, and efficient integration of both grid-supplied and solar-generated power, making them an ideal choice for solar PV projects of any scale.

Whether it's for a new installation or an upgrade, BG Electrical's solutions empower contractors to handle PV-generated electricity efficiently, ensuring regulatory compliance.

SURGE PROTECTION TRAINING AND CPD COURSE

In this CPD module, we will see what we need to protect against, the circumstances requiring protection and how we can achieve that protection.

While surge protection has long been part of BS7671, the advent of the 18th Edition made it a much more stringent and far-reaching requirement. In this CPD module, we will see what we need to protect against, the circumstances requiring protection, and how we can achieve that protection.

www.luceco-academy.com

BIDIRECTIONAL DOUBLE POLE RCBO DEVICES

THE FUTURE OF CIRCUIT PROTECTION

Ensure safer and more reliable installations with our BS7671 compliant bidirectional devices. Bidirectional devices allow EV, PV, and battery storage circuits to both feed in and draw current from the protection device. This is with no compromise to the operation or protection level.

You therefore can have confidence when installing, knowing you are safeguarding the installation and the customer's home.

18th Edition Amendment 3 Compliance

Our advanced RCBO devices ensure safe, bidirectional flow for EV, PV, and battery storage systems.

Confidence in Installation

18th Edition BS7671 compliant devices, with clear terminal labelling for easy identification.

Sustainable and Dependable

Future-ready solutions, offering dependable performance, backed by a 10-year guarantee for peace of mind.

18TH
EDITION

Devices

Surge Protection

Surge protection safeguards electrical systems from transient over voltages caused by indirect light strikes. Protection is essential when over voltages could result in:

- Serious injury or loss of life
- Significant financial or data loss

Mandated by the 18th Edition (BS 7671) IET Wiring Regulations from 26th September 2022, surge protection applies to all new installations, additions, and circuit alterations in the UK. Typically housed within the consumer unit, it prevents over voltages from spreading across installations and circuits, protecting connected devices. British General's Consumer Units come with built-in Type 2 Surge Protection for optimal safety.

Arc Fault Detection Devices (AFDDs)

AFDDs protect against electrical fires by detecting arc faults within circuits. By analysing the circuit's waveform and identifying abnormal patterns, the device disconnects power to the affected circuit, preventing fire risks.

As required by the 18th Edition of the IET Wiring Regulations (BS 7671) from 28th September 2022, AFDDs are mandatory for socket outlet circuits (up to 32A) in:

- High-risk residential buildings
- Care homes
- Houses in multiple occupation
- Purpose-built student accommodation

Alternative to Standard circuit protection devices when additional Arc Fault Protection may be required.

Advanced electronics allow these devices to be more sensitive to arcs than conventional circuit protective devices. British General AFDDs are engineered to provide three key functions:

Overcurrent protection

Residual current protection (30mA)

Continuous detection monitoring of the circuits load waveform for anomalies that would signify an arc fault within the circuit or load.

Type A Residual Current Devices (RCDs)

To prevent unwanted tripping, the 18th Edition (BS 7671) Section 531.3.2 outlines key requirements for selecting and installing RCDs:

Circuit Subdivision: Circuits should be subdivided and paired with individual RCDs to prevent unwanted tripping caused by normal earth leakage currents during load operation. (Refer to Section 314)

RCBOs for Individual Circuits: RCBOs are recommended for individual final circuits in residential installations. (Refer to Section 314)

Limiting Earth Leakage Accumulation: Downstream earth leakage or protective conductor currents should not exceed 30% of the RCD's rated residual current to minimize nuisance tripping.

Effective from 28th September 2022, this regulation ensures that RCD selection limits unnecessary power disruptions.

Type A Devices vs. Type AC Devices

Section 531.3.3 specifies that Type AC RCDs should only be used with fixed equipment where no DC components are present in the load current, such as electric heaters or filament lighting without electronic components.

For equipment containing electronic DC components, Type A RCDs or RCBOs should be used instead, as they are designed to handle both AC and DC residual currents for more comprehensive protection.

Type B Residual Current Devices (RCDs)

Type B RCDs provide advanced residual current detection, making them ideal for:

- Electric vehicle charging
- Photovoltaic installations
- Inverter-driven heat pumps
- Equipment with electronic DC components

These devices can detect AC currents up to 1,000 Hz, rectified AC, pure DC, and pulsating DC, ensuring comprehensive protection for modern installations.

Type F RCBO's

Type F RCBOs provide advanced residual current detection for frequency controlled appliances and equipment making them ideal for:

- Air conditioning controllers
- Dishwashers and tumble dryers with synchronous motors
- Type F is also suitable for Type AC and Type A applications

Pollution Degree 3

This is an approval rating given when testing has been performed on devices or electrical items. It ensures that both conductive pollution or dry non-conductive pollution does not become conductive when natural condensation is present.

Natural condensation can occur when an enclosure containing electrical devices/products is installed externally or in more harsh conditions than an internal application and could potentially be exposed to lower or higher ambient temperatures which could generate natural condensation which may harm the internal electrical components inside the enclosure.

BG Devices are tested to pollution degree 3 and also temperature tested to -25°C to + 40°C.

Changes in the standard

A clear definition of what type of circuit protection devices: **Bidirectional** (2-way power direction that is clearly marked accordingly). **Unidirectional** (1-way power direction that is clearly marked accordingly). To be considered for Installations with EV and PV battery storage, so it is important installers have devices to suit these applications.

Effective from 31st July 2024

Rotary Isolators

AC Rotary Isolators

- Plastic construction
- IP65
- Red/Yellow padlockable handle
- Earth terminals included
- Easy cable access via M20 knockouts (top and bottom)
- Captive retained cover screws
- Switch interlocked with lid to prevent opening in ON position
- Manufactured and tested BS EN 60947-3

2 Pole	4 Pole	Description
-	CPRSD416	16A Rotary Isolator IP65
CPRSD220	CPRSD420	20A Rotary Isolator IP65
-	CPRSD425	25A Rotary Isolator IP65
CPRSD232	CPRSD432	32A Rotary Isolator IP65
CPRSD240	CPRSD440	40A Rotary Isolator IP65
CPRSD263	CPRSD463	63A Rotary Isolator IP65
-	CPRSD4100	100A Rotary Isolator IP65

DC Rotary Isolators

- Plastic construction
- IP66
- Black padlockable handle
- -25°C to + 85° operating temperature
- Isolation of 1 or 2 PV strings
- Easy cable access via 12mm to 25mm knockouts (top and bottom)
- Switch interlocked with lid to prevent opening in ON position
- Captive and retained cover screws
- Designed as an one size enclosure; 4P (4P connected as 2P jumper links are included)
- Manufactured and tested IEC 60947-3

4 Pole	Description
CPDC425	25A Rotary Isolator IP66
CPDC432	32A Rotary Isolator IP66

Why choose Sync Energy?

With over 80 years experience in the electrical industry, Sync Energy (part of the Luceco PLC Group) inspires confidence and trust.

Our range of EV charging products for home, commercial or fleet operator are smart, powerful and safe, packed full of technology to future proof your investment.

IN THE RANGE

Socketed EV Chargers	170
Tethered EV Chargers	170
Accessories	171
Link Chargers	172
Flow Home Energy Management	174
Pro Charger	176
Charging Cables	178
EV Charger Circuit Protection	179

Sync Energy products are guaranteed against faulty materials for a period of 3 or 5 years from date of delivery.

Smart

We optimise EV charging for the cheapest, greenest energy possible.

Track usage and costs all within our free & easy to use partner app.

Safe

Built-in RCD and Open PEN protection.

No need for complex and expensive earth-rod installations, and our safety

RCD protection ensures peace of mind against electrical shocks or short circuits.

Reliable

Covered by a 3 to 5 year warranty as standard, telephone & online technical support, and guaranteed compatibility with all EV makes and models.

Fully compliant with the latest Electric Vehicles (Smart Charge Points) Regulations.

Compatible with all electric and hybrid plug-in vehicles

Sync Energy App

Included at no additional cost, Sync Energy lets you tailor your EV Smart Charging needs. Have full control over your charge-point; deciding who can use it, when and at what cost.

**DOWNLOAD
THE FREE APP**

Smart Charging

Set your charge-point to start charging when the energy is greenest or the cost is lowest – save money and CO₂

Tariff Sense

Our premium energy management feature. Tariff Sense connects to any UK tariff, giving real-time insights and control over charging costs.

Auto Solar Charging

Dynamically charge your car from your excess solar power generation, with easy set up and no additional cost

Charger customisation

Customize your charge-point settings to suit your needs; choose who can access your charge-point, when & at what cost.

Commercial Charging & Back Office

Sync Energy Commercial Chargers are powered by Monta and fully compatible with OCPP 1.6J, offering seamless integration with a variety of apps and back-office systems for maximum flexibility and control.

Commercial Charging Features

Packed with superior user features to provide a seamless charging experience for end-users and ease of management:

Schedules

Manage charge point accessibility and tariffs with flexible scheduling.

InstaCharge

Enable seamless payment with QR codes for a streamlined experience.

Sponsored Charging

Reimburse employees for home charging with integrated solutions.

Share & Monetise

Easily manage who can access your charger and set pricing.

Reservation

Allow users to pre-book charging slots with deposit payments.

RFID Charge Keys

Simplify charging with pre-configured RFID-enabled keys or other compatible RFID cards such as door entry systems, for easy tap-and-charge access.

Multi-Tariffs

Set up unlimited tariff and user groups for tailored charging options.

SmartQueue

Implement a virtual queuing system to ensure efficient usage.

Comprehensive Management

Ongoing management of a Sync Energy Commercial Charging infrastructure is designed to be comprehensive and easy to use:

Team Dashboard

Monitor and manage all your charge points and data across multiple sites all from a central dashboard.

Flexible Access

Allowing time of day control over your chargers enables you to lock off chargers to specific user groups during the day and open to public at night.

Payment Options

Flexible payment solutions for both owners and users, including itemised invoicing and various transaction methods.

Multi-Tariff

Set multiple tariffs per charge point depending on the user, meaning situations such as Visitors, Staff and General Public can all be set to pay different rates.

Socketed Mode 2 Chargers

- Wi-Fi & Ethernet as standard, with options for 4G and RFID
- Type 2 connection
- Single phase 7.4kW and three phase 22kW models
- Interchangeable front fascia, change the shade or colour!
- Suitable for residential and commercial use
- Two base and rear entry points for ease of install
- Full smart functionality and OCPP 1.6J connectivity
- No earth rod required – integrated open PEN conductor protection
- Type A RCD (30mA AC + 6mA DC)
- Integrated Class C power meter, with option for external MID meter
- Compatible with EV stands from Sync Energy and EV tower with Sync Energy mounting plate

SINGLE PHASE 7.4kW

Product Code	Type
EWWC2S7G	Wi-Fi + Ethernet (incl. CT clamp)
EWWC2S7GG	Wi-Fi + Ethernet + 4G* (incl. CT clamp)
EWWC2S7GGR	Wi-Fi + Ethernet + 4G*+ RFID (incl. CT clamp)

*4G data period is for 3 years, see our website for more information

Tethered Mode 2 Chargers

- Wi-Fi & ethernet as standard, with options for 4G and RFID
- Tethered Type 2 connection with 7.5m of cable
- Single phase 7.4kW
- Interchangeable front fascia, change the shade or colour!
- Suitable for residential and commercial use
- Two base and rear entry points for ease of install
- Full smart functionality and OCPP 1.6J connectivity
- No earth rod required – integrated open PEN conductor protection
- Type A RCD (30mA AC + 6mA DC)
- Integrated Class C power meter, with option for external MID meter
- Compatible with EV Stands from Sync Energy and EV tower with Sync Energy mounting plate

SINGLE PHASE 7.4kW

Product Code	Type
EWWC2T7G	Wi-Fi + Ethernet, 7.5m cable (incl. CT clamp)
EWWC2T7GG	Wi-Fi + Ethernet + 4G*, 7.5m cable (incl. CT clamp)

*4G data period is for 3 years, see our website for more information

Wall Charger 2 coloured front covers

- Choose from a range of 9 colours
- Easy to fit DIY swap
- Universal fit for socketed or tethered wall charger 2 chargers

Product Code	Description
EWWC2TPTW	Traffic white
EWWC2TPSG	Signal grey
EWWC2TPSY	Sandstone yellow
EWWC2TPSR	Signal red
EWWC2TPJB	Jet black
EWWC2TPBG	Blue grey
EWWC2TPDB	Deep blue
EWWC2TPRG	Racing green
EWWC2TMMS	High impact metal

EV stands and barrier

- EV Stands available as single or twin, suitable for Wall Charger 1 and 2
 - 3mm galvanised steel, finished in RAL 7016 anthracite grey
 - 1210 (H) X 100 (W) X 50 (D)mm
- EV 'H' style crash barriers finished in 306 stainless steel
 - 500 (H) x 498 (W)mm

Product Code	Description
EVACBHSS	Crash barrier
EVAStand12S	Charger stand – single
EVAStand12T	Charger stand – twin

Load Balancing

Engineered to integrate with existing building wiring without disruption or downtime and support up to 16 chargers. Balancer dynamically monitors available power and communicates with connected chargers to ensure each receives equal power, allowing for easy expansion with additional chargers in the future without exceeding the building's safe power limits.

Product Code	Description
EVAB1ETP400	Three phase up to 400A
EVAB1ESP120	Single phase up to 120A
EVAB1D	Balancer only for existing DIN rail mounting

Our Smallest EV Charger

Ultra-Slim, Discreet Design

At just 37mm when recessed, Link gives you a clean, architectural finish without compromise on function or performance.

Retrofit-table & Easy to install

Whether surface-mounted or recessed, Link is designed to be easy to install. Retrofit-ready with no specialist tools needed.

Advanced protection as standard

With integrated SPD, 40A MCB and Type A RCD, Link meets the highest safety standards, with no need for extra upstream devices.

Versatile Mounting Options

Choose between recessed or surface-mounted to fit your project's needs.

Smart Control

Easily manage charging via the Sync Energy app with OCPP 1.6J connectivity.

Link Charger Recessed

- Ultra-Slim 37mm profile
- 7.4kW type 2 socketed output
- Patented design for compact socket outlet and separated control box
- Suitable for new build properties or retrofit
- Easy to install
- Integrated open PEN conductor protection, no earth rod required
- Remote monitoring and control via Sync Energy app
- OCPP 1.6J connectivity, free lifetime over-the-air updates
- Auto solar charge
- Tariff sense energy management feature
- Models available with
- Wi-Fi/LAN/4G+RFID
- IP65 rated for outdoor use
- IK10 rated
- 3 year warranty

Product Code	Type
EVL7MS	7.4kw silver with metal control box and Wi-Fi connection
EVL7MSG	7.4kw silver with metal control box and Wi-Fi + 4G connection

Link Charger Surface

- Ultra-Slim 37mm profile
- 7.4kW type 2 socketed output
- Patented design for compact socket outlet and separated control box
- Suitable for new build properties or retrofit
- Easy to install
- Integrated open PEN conductor protection, no earth rod required
- Remote monitoring and control via Sync Energy app
- OCPP 1.6J connectivity, free lifetime over-the-air updates
- Auto solar charge
- Tariff sense energy management feature
- Models available with
- Wi-Fi/LAN/4G+RFID
- IP65 rated for outdoor use
- IK10 rated
- 3 year warranty

Product Code	Type
EVL7MS	7.4kw silver with metal control box and Wi-Fi connection
EVL7MSG	7.4kw silver with metal control box and Wi-Fi + 4G connection

Home Energy Management

From Hybrid Inverters and Battery Storage to Solar Power Diverters and EV Chargers, every solution has been thoughtfully engineered to be easy to install, intuitive to use, and seamlessly connected through the Sync Energy App, the only platform you'll need for total home energy management.

All in One Systems

- All in one stackable design: Hybrid inverter and battery storage
- Scalable, modular battery storage up to 35.84kW
- PV ready, solar systems can be added at any time
- Integrated fire suppression, for safety and peace of mind
- Integrated heating below 5°C
- Integrated AC and DC surge protection

Product Code	Type
SEF1A36G1	Sync Energy Flow All In One 3.6kw + 1 Battery
SEF1A60G1	Sync Energy Flow All In One 6kw + 1 Battery
SEF1A36G2	Sync Energy Flow All In One 3.6kw + 2 Batteries
SEF1A60G2	Sync Energy Flow All In One 6kw + 2 Batteries
SEF1A36G3	Sync Energy Flow All In One 3.6kw + 3 Batteries
SEF1A60G3	Sync Energy Flow All In One 6kw + 3 Batteries

Modular Battery Storage

- Easy to use stackable design
- Scalable, modular battery storage up to 35.84kW
- Integrated fire suppression, for safety and peace of mind
- Remote monitoring and control via Sync Energy app
- LiFePo4 batteries, with 90% depth of discharge
- Integrated heating system for charging below 5°C

Product Code	Type
SEFB512G1	1 Battery 5.1kW
SEFB512G2	2 Batteries 10.2kW
SEFB512G3	3 Batteries 15.4kW
SEFB512G4	4 Batteries 20.5kW

Hybrid Inverters

- Stackable or wall mountable design
- PV ready, solar systems can be added at any time
- Integrated AC and DC surge protection
- 150% PV oversupply capability
- Remote monitoring & control via Sync Energy app
- Integrated PV Isolation, DC Battery and AC MCBs

Product Code	Type
SEFH36G	Hybrid Inverter 3.6kW
SEFH60G	Hybrid Inverter 6kW

Solar Power Diverter

- 16Amp twin output
- Allows you to boost, schedule and set time limits
- Easily set preference for hot water, battery or EV charger
- Remote monitoring and control via Sync Energy app
- True AC wave power control, adjustable power control
- Compatible with PT100 Temperature probes for target temperature control

Product Code	Type
SEFSW	Solar Power Diverter

Pro Charger Twin Socket Bollard Floor-Mounted

- Twin Type 2 socket outlets
- Backlit intuitive colour touchscreen
- On screen & RGB LED charge status indicator
- IP65 and IK10* rated durable die-cast aluminium and galvanised steel construction
- Supports Monta QR code, RFID, plug & charge, and payment terminal charging
- Built-in 4G connectivity, MCB and MID meters as standard
- PAS 1899 compliant design, ensuring accessible charging
- 5-year on-site warranty
- Three phase with 1x22kW or 2x11kW max output
- Single phase with 2x7.4kW max output
- Available with integrated LED amenity light**
- Contactless card terminal option for easy tap and go payments
- Dimensions:
 - Floor-Mounted no light: 1300 (H) x 263 (W) x 263 (D)
 - Floor-Mounted with light: 1422 (H) x 265 (W) x 265 (D)

**IK10 body, IK08 screen*
***Lighting design files available on request*

TWIN BOLLARD WITH LIGHT

Product Code	Type
EVPCFSM211LBGRP	Three phase + payment terminal
EVPCFSM211LBGR	Three phase
EVPCFSM27LBGRP	Single phase + payment terminal
EVPCFSM27LBGR	Single phase

TWIN BOLLARD

Product Code	Type
EVPCFSM211NBGRP	Three phase + payment terminal
EVPCFSM211NBGR	Three phase
EVPCFSM27NBGRP	Single phase + payment terminal
EVPCFSM27NBGR	Single phase

Pro Charger Twin Socket Wall-Mounted

- Twin Type 2 socket outlets backlit intuitive colour touchscreen
- On screen & RGB LED charge status indicator
- IP65 and IK10* rated durable stainless steel and UV resistant polycarbonate construction
- Supports Monta QR code, RFID, plug & charge and payment terminal charging
- Built-in 4G connectivity, MCB and MID meters as standard
- PAS 1899 compliant design, ensuring accessible charging
- 5-year on-site warranty
- Three phase with 1x22kW or 2x11kW max output
- Single phase with 2x7.4kW max output
- Contactless card terminal option for easy tap and go payments
- Dimensions:
 - Twin wall-mounted: 625 (H) x 333 (W) x 210 (D)

**IK10 body, IK08 screen*

Product Code	Type
EVPCFSM211LBGRP	Three phase + payment terminal
EVPCFSM211LBGR	Three phase
EVPCFSM27LBGRP	Single phase + payment terminal
EVPCFSM27LBGR	Single phase

Wall Charger 2 Three Phase

- Single Type 2 socket outlet with auto-lock
- Dynamic charging – up to 22kW (32A)
- Interchangeable front fascia
- Designed for ease of installation with two base and one rear entry points
- Fully compliant with the latest electric vehicles (smart charge points) regulations
- Full smart functionality and OCPP 1.6J connectivity
- Compatible EVASTAND12S and EVASTAND12T EV stands, offering flexibility in installation options
- Dimensions: 305 (H) x 201 (W) x 115 (D)

Product Code	Type
EWWC2S22GGR	Single socketed – three phase

Portable EV Chargers

Perfect for travelling to destinations that only offer a standard 13A plug socket, suitable for all plug-in electric vehicles.

- Provides safe and intelligent portable EV charging for all plug-in electric vehicles
- Perfect for travelling to destinations that only offer a domestic (13A UK 3 pin) socket
- UK 3 pin plug to Type 2 EV plug
- Charges up-to 10A, 2.4kW – up-to 8 miles per charging hour
- 5 or 10 metres of high-performance cable
- IP65 rated (control box) – IP65 when connected to vehicle, IP55 when not in use and end-cap applied
- LED charging status indicator
- 3 year warranty

Product Code	Type	Length
EVC22135	UK 3 Pin – Type 2	5m
EVC221310	UK 3 Pin – Type 2	10m

EV Charging Cables

- Single-phase and three-phase mode 3 Type 2 to Type 2 charging cables
- Robust construction with connector guard caps/protectors
- Suitable for 16 and 32A sockets
- 7.4kW / 250V~ & 22KW / 480V~
- Weather-resistant IP65 when connected to vehicle. IP55 when not in use and end caps applied
- High specification, UV stable cable
- Meets EN 50620, IEC 62196-2 standards
- 3 year warranty

Product Code	Type	Length
EVC22325SL	Type 2 – Type 2	5m
EVC22328SL	Type 2 – Type 2	8m
EVC223210SL	Type 2 – Type 2	10m
EVC22325TL	Type 2 – Type 2 3-phase	5m
EVC22328TL	Type 2 – Type 2 3-phase	8m

Cable Carry Case

- Keeps EV charging cables neat and tidy
- Lightweight and easy to carry
- Zipped opening with durable polyester construction
- Suitable for use with Type 1 and Type 2 mode 3 EV charge cables, and mode 2 charger cables
- 410mmØ
- 10kg weight capacity
- 1 Year manufacturer warranty

Product Code	Description
EVCASE	Cable carry case

EV Charger Circuit Protection

Designed specifically for use with EV vehicle chargers to allow for internal and external wiring applications and are 18th Edition Amendment 2 compliant.

- Quick and easy installation
- Type 2 SPD included
- IP rated protection
- 10 year warranty

External IP66

- Quick and easy installation
- Type 2 SPD included
- IP66 rated protection

Product Code	Description	Finish
CP5R4PS1G	IP66 External EV Circuit Protection, RCD & MCB	Grey
CP5MRDPS1G	IP66 External EV Circuit Protection, Main Switch & RCBO	Grey
CP5MPS1G	IP66 External EV Circuit Protection, Main Switch & MCB	Grey

Internal & External IP65

- Quick and easy installation
- Type 2 SPD included
- 5 Module, IP65 rated protection
- 20mm knockouts on all sides drillable to 32mm
- Available in White or Grey

Product Code	Description	Finish
CFEV5A	40A 30mA Type A RCD – 40A MCB	Grey
CFEV5AW	40A 30mA Type A RCD – 40A MCB	White
CFEV6	100A Main Switch – 40A MCB	Grey

EVA120CT1	Up to 35mm Double Insulated Cable
EVA400CT1	Up to 90mm Double Insulated Cable

PROCHARGER

Introducing the Pro Charger range from Sync Energy

Delivering advanced technology, ease of use, and reliable performance for all public and commercial environments.

As part of our evolution into Syno Energy, we're launching the Pro Charger range – expanding our energy-efficient solutions for public and commercial use.

Designed for ease of installation with intuitive touchscreens and flexible payment options for a seamless user experience and reliable performance.

Discover more at www.sync.energy/commercial or scan the QR code

Masterplug Portable Power

Masterplug is one of the most recognisable brands in the world and has been at the forefront of Portable Power for many decades.

With over 80 years of sales, distribution and manufacturing expertise, we fully understand our customers' requirements and as such we can offer tailor made solutions to our retail partners. These solutions combine high-quality market-leading products with low cost production to ensure our products not only meet the current market trends but exceed our consumers' expectations.

IN THE RANGE

EV Charging	186
Basics Power	188
Switched Power	194
Surge Power	197
USB Power	200
Outdoor Power	207
Work Power	213
Home Power	220
Travel Power	224
Timers Power	228
ProXT Power	230
Site Power	235

Quality Assurance

As one of the world's leading manufacturers, our products are made to the highest possible quality standards. We consider our corporate social responsibility at each step to bring security and peace of mind.

Compliance Testing

Our on-site ISO9001 certified laboratory ensures that all our products are manufactured to the relevant internationally recognised quality standards. Ongoing mass production testing and pre-shipment inspections ensure our products leave our facilities in the best possible condition.

Product Development

Analysis of market trends combined with our global design teams gives us a unique position from which to drive our product categories. In-house production engineering, rapid tool making and on-site prototyping delivers timely and continuous product development and improvements to the market.

Responsive Supply

Our flexibility in production and raw material stock holding improves the manufacturing and delivery lead times to our partners. We have very flexible supply routes and can ship direct from our 100% wholly owned factory in China, or from our various global warehouses.

ELECTRIC VEHICLE CHARGING

DOMESTIC ELECTRIC VEHICLE CHARGING SOLUTION

Protected Outdoor Socket

EVH132S1SPA

- Protected outdoor socket to facilitate Mode 2 EV charging
- 2.3Kw charging via a UK 3-pin socket
- For use with Mode 2 EV Charging cables (UK 3-pin to Type 1 or Type 2)
- 16A, B-Type RCBO and A-Type RCD for added safety protection for prolonged charging
- Weather and dust proof to IP66 rating
- Additional space for fitting a surge protection device

Mode 2 (AC): Domestic socket and cable with protection device

“ROAD TO ZERO” STRATEGY

EV Charging point suitable for planning requirement 106

Electric Vehicle Charging Explanation

Mode 2 (AC)

Domestic socket and cable with protection device

Standard household socket-outlet with an in-cable protection device and a power level control.

Mode 3 (AC)

Specific socket on a dedicated circuit

EV socket-outlet and plug with control and protection function.

Mode 4 (DC)

Direct current (DC) connection for fast recharging

Direct current with power levels starting at 20 kW.

Plug Types

Type 1

Mainly Japanese and US vehicles

5 Pins with a latching connector

Type 2

Mainly European Vehicles

7 Pins with a locking pin whilst in use

Typical Charging Times

	Maximum Power Output from EVSE (Kilowatts)	Example Charging Time (Hrs, Mins)	Input Voltage (Volts)	Maximum Current (Amps)	Mode
AC	2.3kW	8hrs 20mins	230 1-phase AC	10	2
	7.4kW	3hrs 30mins	230 1-phase AC	32	3
DC	20kW	1hr	400 1-phase AC	200	4

EV CHARGING ⚡

Mode 3 – EV Home Charger

- Smart Home Charging Convenience: Charge your Type 2 EV at home with ease
- Dynamic Charging Capability: Up to 7kW (32A)
- Smart Charging
- IP65 rated
- Integrated Solar: utilize excess solar power for charging
- Includes CT Clamp for Dynamic Load management
- Compatible with EV stands from Sync Energy
- Powered by Sync Energy App for easy tariff set up and schedules

Cat No	Description	Colour	Carton Qty
EVCN3SS7B	7kW Mode 3 Charger - Type 2 socket	Black	4
EVCN3ST7B	7kW Mode 3 Charger - 5m Tethered	Black	3
EVCN3SS7W	7kW Mode 3 Charger - Type 2 socket	White	4
EVCN3ST7W	7kW Mode 3 Charger - 5m Tethered	White	3

Mode 2 – EV Charging Cables

- The Masterplug mode 2 charging cables provide safe and intelligent portable EV charging for all Electric Vehicles
- UK 3 Pin Plug to Type 1 or 2 EV plug
- IP66 rated
- Charges up to 10A, 2.3kW (8 miles range per charging hour)
- Angled Type 2 EV connector
- In-line power controller with built-in protection and LED LCD charging status screen

Cat No	Description	Carton Qty
EVCN221003	3 Pin plug to type 3 metre	4
EVCN221005	3 Pin plug to type 2 - 5 metre	4
EVCN221008	3 Pin plug to type 8 metre	4
EVCN221010	3 Pin plug to type 2 - 10 metre	4
EVCN221015	3 Pin plug to type 15 metre	4

Mode 3 – EV Charging Cables

- The Masterplug mode 3 charging cables provide safe charging connections to Mode 3 power supplies
- Type 2 connection to Type 1 or 2 EV plug
- IP55 rated
- Charges up to 32A
- Single phase cables rated to 7kW, ideal for home charging use
- Three phase cables are ideal for public chargers offering 3x fast charging, up to 22kW

Cat No	Description	Carton Qty
EVC22325SL/CASE	5m Mode 3 7kW Charging Cable, Type to Type 2 - with Carry Case	4
EVC22325TL/CASE	5m Mode 3 22W Charging Cable, Type to Type 2 - with Carry Case	4

EV CHARGING ⚡

Weatherproof Outdoor Socket – Facilitates Mode 2 EV Charging

- 2.3kW charging via an UK 3-pin socket
- For use with Mode 2 EV charging cables (UK 3 pin to Type 1 or Type 2)
- 13A unswitched socket with localised safety protection during prolonged charging
- Water and dust protection to IP66, with covers for each compartment
- Gives 8 miles per charging hour
- Meets housebuilder EV specification
- Suitable for use as regular outdoor power socket

Cat No	Description	Carton Qty
EVH132S1SPA	13A socket with 16A DP A-Type RCBO	2

EV Charging Cables Carry Case

- A practical storage carry case for your electric vehicle charging cable.
- Keeps your EV cable clean and tidy when not in use.

Cat No	Description	Carton Qty
EVCASE	EV cable carry case	5

Shaver Adaptor

- Connect a electric shaver or toothbrush – to a standard 3 pin mains socket
- Solid brass sleeved round pins – prevents contact when the plug pins are live
- Trusted quality – manufactured and certified to BS1363-3
- Fitted with a replaceable 1A fuse

Cat No	Fused	Colour	Pack Qty
SHADC-MP	1A	White	5

BASICS

Multi-Voltage Adaptor

- Includes seven jack plug connectors – ideal for powering a variety of low voltage appliances
- Adjustable output voltage – 3-12V DC
- Input voltage – 220-240V AC
- Fully regulated power supply – tested to BS EN 60950

Cat No	Rating	Colour	Carton Qty
MVA1200-MP	1200mA	Black	5

Small Cassette Reel

- Four sockets – allows you to connect four items safely into one outlet
- Socket safety shutters – prevents the insertion of foreign objects
- Robust design – ideal for home, DIY and light commercial use
- Four metres of cable – to extend the reach of the socket
- Safety thermal cut-out – prevents overheating if reel is overloaded when not fully unreeled
- Rear grip – allows for easy transportation
- Drum wind handle – making retracting the cable after use easy
- Trusted quality – manufactured and certified to BS 61242

SURGE

Protect your valuable equipment from damaging surges and spikes

WHAT IS SURGE?

Hundreds of power surges can occur in your home or office every day; the switching on/off of fluorescent lights and household appliances can cause power surges, which can seriously damage electronic equipment. Even low energy surges can cause gradual component degradation, leading to early hardware failure. Masterplug Surge products protect your devices against these surges and spikes.

20W USB C Fast Charger

- Powerful USB Charging – Delivering a 20W output, this is an ideal solution for fast charging your mobile phones
- Fast Charging for Mobile Devices – Charge your iPhone 15 from 0-50% in 30 minutes – 3x faster than the original 5W charger
- Wide Compatibility – With a USB C port, you can fast charge your latest and legacy devices effortlessly
- Advanced Technology – Supporting Power Delivery (PD) 3.0, Qualcomm Quick Charge (QC) 3.0 and other leading protocols ensures the latest devices can benefit from the fast and smart charging capabilities
- Programmable Power Supply – PPS technology provides an optimised experience by adapting the power, charging at safer and more efficient speeds, and extending the device's battery life and health
- Compact and Portable – Making it easy to pack away, ensuring you have a reliable power source whether you are travelling, in the office or at home
- Ultra Slim Design – Providing a great solution when using behind bedside tables, chests of drawers, and console tables
- Safety First – With built-in protection, your device remains safe from overcurrent, overvoltage, short-circuiting or overheating

USB Cable – USB C to USB C

The USB C to USB C cable also has the ability to charge laptops, tablets and any other USB C device. The technological advancement has also allowed USB C cables to not only charge and sync devices, but also share video to your computer monitor in 4K, making the additional power cable redundant.

- Supports power delivery fast charging – USB 3.1 Gen 2 USB technology
- Charge and sync your USB devices – compatible with the latest devices and your Mac or Windows PC
- Latest transfer speeds – at 10GBPS, this is 20x faster than USB 2.0 (480MBPS)
- Up to 100W of power – rated to 20V/5A
- USB Type C connectors – with a reversible design, this makes it extremely easy when plugging in. No getting the connector the wrong way anymore
- 1m/3.3ft of cable – connection allows charging in the case

USB Cable – USB C to Lightning

The USB C to Lightning cable is compatible with iPhone 5s onwards, iPad Mini, iPad Retina, iPod Touch 5th Gen onwards and iPod Nano 7th Gen onwards and accredited by Apple's MFi (Made for iPod, iPhone and iPad) program, demonstrating a superior quality.

- Supports power delivery fast charging – charge iPhone X in 30 minutes (with a compatible PD charger)
- Charge and sync your USB devices – compatible with the latest devices and your Mac or Windows PC
- Up to 18W of power – rated to 9V/2A
- USB Type C and lightning connectors – with a reversible design, this makes it extremely easy when plugging in. No getting the connector the wrong way anymore
- 1m/3.3ft of cable – connection allows charging in the case
- Licenced with MFi program

LUCECO

LED Lighting & Accessories

Luceco provides commercial and domestic lighting solutions, using energy saving and environmentally friendly LED lighting.

Established in 2013, to address the rapidly growing LED lighting market, Luceco has rapidly established itself as one of the leading brands for professional lighting in the UK. It continues to innovate and regenerate its product offer to provide the most efficient and comprehensive range of lighting solutions.

Why LED?

ENVIRONMENTALLY FRIENDLY

Fluorescent lighting contains mercury. LEDs do not. This makes LEDs safer both to use and dispose of. The mercury contained in just one fluorescent lamp is enough to contaminate 30,000 litres of water beyond safe drinking level limits. Fluorescent lamps are therefore classified as 'hazardous waste'.

COST EFFECTIVE

The true cost of fluorescent lighting is not only in its energy consumption. There is also maintenance over its lifetime, replacement labour and lamp outlay, and disposal costs. With LED, these costs don't exist. LED is a Fit-&-Forget solution.

SAFE LIGHTING

LEDs emit minimal Ultra Violet light (UV). UV light attracts insects and can be harmful to skin, clothing and artwork. Heat emissions are greatly reduced with LED, which means they are cool to touch and perfect for heat sensitive applications.

INSTANT LIGHT

LEDs produce 100% light instantly, with none of the warm up time required by fluorescents.

DURABILITY

LEDs do not contain a filament that can be damaged by shock and vibration – making LED one of the most stable light sources available.

LONG LIFE

The life of LED is between 4 and 40 times greater than traditional products. What's more, they produce consistent light output over their entire life.

LED Panels

Recessed lighting within suspended ceilings for offices, classrooms and other commercial environments plays a vital role in the overall performance of the space.

A complete range of flexible high quality panels and accessories suitable for all areas.

Our LED Panel range includes:

- Sigma Plus
- Luxpanel Backlit Extra
- Luxpanel Essence

Surface / Suspended

Comfort without compromise for offices and education applications. Luceco offers a comprehensive range of stylish surface and suspended LED lighting luminaires, suitable for any industry use.

Our Surface & Suspended range includes;

- Leren (Surface and Suspended options available)
- Contour (Recess and Suspended options available)
- Academy
- Opus

Commercial Downlights

Perfect for large scale projects, our range of commercial LED downlights is designed with easy installation, long-life technology and the lowest possible maintenance needed in mind. A perfect choice for commercial & residential environments.

Our Commercial Downlight range includes:

- Platinum Downlight
- Platinum Mini Downlight
- Carbon Downlight
- Luxpanel Circular Downlight

Fire Rated Downlights

Downlights are increasingly used in residential and commercial spaces for both general and accent lighting. The appearance of a clean ceiling line enhances the modern environment.

A complete range of downlights available, up to 90 minute fire rated with options available on finish, colour temperature and adjustability.

Our Fire Rated Downlight range includes:

- FType Elite
- FType Mk2
- FType Essence

Bulkhead

Bulkheads are an essential part of many lighting installations, typically used either ceiling or wall-mounted, internally or externally.

Our wide range of bulkheads are available in multiple decorative finishes with suitable ingress protection. Additionally, some ranges offer microwave sensors for presence detection.

Our Bulkhead range includes:

- Mosi Bulkhead
- Sierra Bulkhead
- Celeste Bulkhead
- Atlas Bulkhead
- Andes Bulkhead

Industrial

Industrial lighting applications come in a variety of shapes and sizes. The type of lighting required is dependent on the ceiling height, area use and the environment.

Our wide range of linear, highbay and lowbay lights offer multiple lumen outputs and lighting distributions ensuring a suitable solution for all applications.

Our extensive Industrial range includes:

- Ceres
- Luxbay Ultra
- Titan Highbay
- Elara Bay

Linear

Lucocos flexible range of linear LED lighting suitable for use in a wide range of industrial, commercial and sporting applications. Easy to install and robust, our Linear LED lighting is built to last.

Our Linear lighting range includes:

- LuxPack Essence
- Climate Essence

Kingfisher

Distinctive Products, Outstanding Service

Illuminating exterior lighting collection offering quality output and a durable design, perfect to enhance any lighting scheme.

Our Kingfisher lighting range includes:

- Amnis Floodlight
- Alfresco 2.0 Bulkhead
- Viva-City Pro
- Deco Bollard

Essence Floodlights

Utilising the latest high efficiency LED technology, Luceco Essence Floodlights have:

More user friendly*, Less install time

- Easy fit fully rotatable mounting bracket
- 1m pre-wired in rubber cable
- PIR over-ride

More light output, Less wattage*

- Range includes four outputs offering up to a 500W Halogen equivalent from just 50W

More illumination, Less wasted light*

- Precision designed reflector provides a controlled beam angle

Exterior Decorative

Light up your garden with our amazing exterior decorative lighting collection. Premium quality, dynamic and durable.

The Exterior Decorative range combines performance with aesthetics to create functional and beautiful outdoor spaces. They are designed to match in colour temperature, finish and construction.

Our Exterior Decorative range includes:

- Azurar Wall Lantern
- Azurar Stainless Steel Wall Lights
- Extensive range of decorative wall lights

Inspection, Work Lights & Site 110V Lighting

Luceco's range of new LED Inspection Lights offer tradesmen, installers and quality inspectors a durable LED work light suitable for any work place.

Our Worklight and Site 110V Lighting range includes:

- Rechargeable Work Light Folding Magnetic
- Herculous open area work light
- Full range of USB Torches
- Eco Slimline Tripod Work Lights
- Complete 110V Lighting range

LUCECO
LIGHTING

INSPECTION &
WORK LIGHTS

The Professional's Choice

Reliable, High-Quality, Innovative Lighting

Durable & Tough:

Built with robust materials and IP-rated to withstand the toughest work environments.

Versatile Lighting:

Bright, consistent coverage for any task, ensuring no area is left in the dark.

Long-lasting Performance:

Extended working hours at full output without compromising battery life.

Innovative Solutions:

From versatile mounting for hands-free use to a built-in USB power bank, Luceco Inspection Lights are designed to make your work easier.

LUCECO PLATFORM

THE FUTURE OF LIGHTING CONTROL

MASSIVE SAVINGS AT YOUR FINGERTIPS

The Platform wireless lighting control solution from Luceco is designed to support a variety of lighting control strategies. You can mix them, monitor the results, and quickly introduce desired changes to maximize savings. Make sure your luminaires provide light only when and where it's needed!

OCCUPANCY SENSING

Never light unoccupied spaces again. Deploy sensor-driven automation to generate lighting energy savings of up to 50%.

DAYLIGHT HARVESTING

Make sure your rooms are not overlit. Automatically adjust luminaires' output to natural light availability and save up to 20%.

SCHEDULING

Put your luminaires on a schedule that precisely matches your business hours. Lighting energy savings can reach up to 30%.

MANUAL CONTROL

Regardless of what strategies you deploy, you can accompany them with convenient wireless switches/dimmers. End users will be able to adjust lighting in response to visual needs, and you might save up to 40%.

TASK TUNING

From simple high-end trim to sophisticated multi-scene scenarios, make sure your lighting is always perfectly tailored to the requirements of your employees / customers. They will feel great and you might save up to 40% of lighting energy.

ENERGY MANAGEMENT

From single luminaires to entire buildings, you can get detailed energy consumption data just as you need it – in the form of raw numbers or convenient visual heatmaps. Analyze that data and find the strategies that work best for you to maximize savings!

Luceco Custom Service Lighting & Design

Free
SERVICE

With over 100 years of combined lighting design experience, our expert team are on hand to provide free lighting design solutions for any lighting projects ensuring compliance to the latest British Standards and CIBSE lighting guidelines.

We are also on hand to offer specialist advice and knowledge on our extensive product range and applications.

RELUX
light simulation tools

Luceco utilise the latest lighting design software by Relux, and are able to provide in-depth reports for each of their lighting calculations. As a member of Relux, Luceco's full photometric data portfolio is available on its software if clients wish to perform their own designs.

theLIA

Our skilled team of lighting designers are fully qualified through the Lighting Industry Association.

Kingfisher
Lighting

As well as Luceco's own in-house lighting design service, we are fully supported by our specialist external lighting company who offer a free design service tailored for exterior applications.

Return on Investment

Luceco are also able to produce 'Return of investment' calculations to show potential payback and energy savings for our proposal to clients.

How it works:

1. Gather information required for a lighting design to be created, including drawings or dimensions, specifications and ceiling heights.
2. Submit these details to your Area Sales Manager or email: lighting-design@luceco.com
3. Once completed, your lighting design will be emailed out to you, including luminaire part codes and quantities, lighting calculations, and marked up drawings if available. lighting-design@luceco.com

ROSS

TV Mounts & Accessories

Ross is a leading manufacturer of TV wall mounts and AV accessories. We offer a full range of products to suit every requirement and use case, from entry level to premium.

We have the capability to produce in-house at our industry leading manufacturing facility to meet specific customer requirements and our products are sold worldwide through a network of trade and retail partners.

TV Mount Benefits

Ross TV mounts help to avoid glare and give a comfortable viewing position, for the best possible TV and home cinema experience. TV mounts save space in your room and keep the TV out of reach of children and pets.

5 year warranty

As standard for peace of mind.

UK customer support

To provide guidance and resolve any questions.

Spirit level

Included in the accessory bag as standard, for accurate installation every time.

Plastic-free packaging

All fixings are now in paper envelopes. No parts are supplied in plastic bags.

Options

All ranges offer articulation and adjustment options to suit the preference of each customer and each mounting situation – flat to wall, tilt and turn or the ultimate flexibility of full motion. They are available in a range of sizes to mount virtually any TV.

Flat to Wall

- Simple, elegant picture-style mounting
- Low profile designs mount TV as close as possible to wall

Turn &/or Tilt

- Tilt action permits TV positioning to avoid screen glare and reflections
- Models featuring swivel action offer improved viewing flexibility, especially when combined with single arm extension

Full Motion

- Full articulation mounts permit ultimate viewing flexibility
- Ideal for mounting into corners or to rotate screen at right angles to wall

Understanding VESA Mount Standards

VESA (Video Electronics Standards Association) has developed a set of standard mounting holes for TVs and monitors, followed by most manufacturers. All Ross brackets conform to one or more of these VESA standards.

Simply take a look in your TV's instruction manual, web support page or measure the spacing of the holes on the back of the TV itself, to select the correct size for your screen.

Each mount's VESA compatibility is shown on the product packaging with simple universal icons, as well as colour-coded pack artwork to help find compatible mounts for your screen size.

HDMI Cables

- Supports HDMI with Ethernet – take advantage of your SMART internet-enabled devices without a separate Ethernet cable
- High density triple shielding for maximum rejection of EMI and RFI interference
- 24k gold plated connector resists corrosion and ensures an optimum connection for maximum signal transfer
- Resolutions up to 4K at 50/60Hz (2160p) – four times the clarity of 1080p/60 video resolutions, for the ultimate audiovisual experience

F/Satellite Cables & Connectors

- For connecting your TV to your satellite box or wall socket
- Plastic moulded heads with strain relief
- Male to Male nickel satellite 'F' plugs
- Includes Female coupler to allow you to extend or convert the plug from Male to Female
- F Type SAT connector – allows you to construct or replace damaged satellite 'F' leads/connectors

Audio Cables

- Audio jack to phono-connect your speakers to a portable device and share your music
- Phono cable-connect your audio equipment together
- Audio jack extension cable - connect or extend your stereo, headphones or any device that uses an audio jack
- 3-phono to 3-phono – connect your TV and audio equipment to one another

TV COAX Cables & Connectors

- For connecting equipment using a TV aerial socket or to extend an existing TV aerial cable
- Plastic moulded heads with strain relief
- Splitter – Allows you to connect two TVs to one aerial
- Includes Female couple to allow you to extend or convert the cable from Male to Female

Reception & Distribution

- Receive full High Definition digital television signals and DAB radio programmes
- All Ross reception and distribution products have an integrated 4G filter which removes any interference caused by 4G mobile networks
- Flat – Ultra flat design, offers superior performance with a stylish, discreet appearance

USB Accessories and Cables

- Car charger for convenient charging of portable devices while you are on the move
- Plug into a car's standard 12-volt outlet to convert it to USB-A ports of 2.1A and 1A
- Compatible with A to C USB cable (USBAC35G1). USB C and Lightning cables are also available in the Masterplug range.

DEFINITIONS

1.1 In these Conditions the following expressions shall have the following meanings:

1.1.1 "Contract" means the quotation, these Conditions of Sale and any other document which it is agreed by the Seller to incorporate into a contract between the Seller and the Customer'

1.1.2 "the Customer" means any person, firm or company entering into a Contract with the Seller'

1.1.3 "Goods" means all and every item of goods or part thereof supplied by the Seller and where relevant includes any work carried out by, or any service supplied by, the Seller to the Customer;

1.1.4 "Seller" means BG Electrical Limited;
2.

GENERAL

2.1 These Conditions apply to all contracts for the sale of Goods by the Seller and supersede any previous Conditions of Sale published by the Seller. No additions or modifications to our terms and conditions inconsistent with these Conditions shall be binding upon the seller unless expressly agreed by the Seller in writing.

2.2 All brochures, catalogues, price lists and other advertising or descriptive material submitted to the Customer are intended to be approximate only and to give a general impression of the Goods. Unless expressly incorporated the same shall not form part of the Contract. The Seller reserves the right to make minor alterations to the design specification or construction of the Goods without prior notification to the Customer.

2.3 Under no circumstances will the Seller be liable for technical information, recommendations, statements or advice (hereinafter together referred to as "information") whether oral or in writing furnished by the seller, its servants or agents before a contract of sale is made, where that information is given in reliance on information published or provided by an independent company or person.

2.4 The Customer shall be responsible for complying with any legislation or regulations (of the United Kingdom or any other country) governing the export and import of the Goods into the country of destination (and any other country through which the Goods pass in transit) and for the payment of any duties thereon. The Customer shall fully indemnify the Seller against any fines, penalties, costs, claims, damages, losses and the expenses suffered by the Seller as a result of the Customer failing to comply with this Clause.
3.

QUOTATION AND ORDERS

3.1 No contract for the supply of Goods will be created by the acceptance of a quotation or by an order by the Customer until the Seller acknowledges such acceptance or order (either verbally in writing) or commences work on the order.

3.2 If the Seller provides a quotation such quotation is only open for a period of 30 days and (without prejudice to clause 3.1) the Seller reserves the right to refuse to accept any order based upon a quotation unless an order is made within such period.

3.3 If the Goods are to be manufactured or any process is to be applied to the Goods by the Seller in accordance with specification submitted by the customer, the Customer shall indemnify the Seller against all losses, damages, costs and expenses awarded against or incurred by the Seller in connection with or paid or agreed to be paid by the Seller in settlement of any claim for infringement of any patent, copyright, design, trademark or other industrial or intellectual property rights of any other person which results from the Seller's use of the Customer's specification.

3.3.1 The Seller reserves the right to make any changes in the specification of the Goods which are required to conform with any applicable safety or other statutory requirements or, where the Goods are to be supplied to specification, which do not materially affect their quality or performance.
4.

PRICE AND PAYMENT TERMS

4.1 Subject to clause 4.2.1 all prices charged are those current at the time of despatch of the goods. All prices are inclusive of carriage (subject to clause 7.1) but exclusive of VAT.

4.2 Payment for the Goods shall be due and payable in POUNDS STERLING by the last day of the month following that in which the goods have been dispatched.

4.2.1 A discount (as specified in the Sellers price list) of the price (exclusive of VAT and delivery charges) shall be allowed if payment is made by such date. No discount shall be allowed on any payment made after that date and the Seller reserves the right to charge interest at 3% above The Royal Bank of Scotland plc's base lending rate for the time being on any overdue payments until repaid in full.

4.3 The Seller reserves the right to recover from the Customer all direct expenses reasonably incurred by the Seller in the collection of any overdue sums.

4.4 Without prejudice to any other rights of the Seller, if there is reason to doubt that the amounts due from the Customer under the terms of the Contract will be paid in full then the Seller reserves the right to require payment in full before delivering or performing any other work or services whatsoever for the Customer.

4.5 The Customer shall indemnify the Seller against all losses sustained or extra expenditure incurred as a result of such suspension.

4.6 Where payment requested in accordance with this clause is not received within 30 days of demand, the Seller reserves the right to sell or dispose of the goods produced for the Customer and to recover any additional loss from the Customer.
5.

TITLE

5.1.1 Legal ownership of the Goods is to remain vested in the Seller until the Goods have been paid for in full;

5.1.2 If the Customer obtains possession of the Goods prior to such payment, the customer shall hold the goods in a separate and identifiable form as bailee and fiduciary agent for the Seller;

5.1.3 Failure to pay the full amount when due shall give the Seller, or its employees or agents, the right to repossess the Goods (and enter the customer's premises for that purpose if necessary) with or without and without liability and, at its option, to avail itself of any other legal remedy;

5.1.4 The Seller shall have the right to sell the Goods once they have been re-possessed under this condition.

5.2 Notwithstanding this clause 5, the Seller shall be entitled to maintain an action for the price of the Goods at any time after the date when payment is due.

5.3 If prior to payment in full being made the Goods become commingled with similar goods belonging to the Customer and/or any third party the customer shall hold the Seller's proportion of the commingled Goods or their proceeds of sale on trust for the Seller. The Seller shall be treated as a tenant-in-common of the commingled goods and the Customer shall hold as trustee for the Sellers' proportion and (if the commingled goods have been sold) pay to the seller its due proportion of the proceeds of the sale.
6.

PERFORMANCE AND FORCE MAJEURE

6.1 The Seller shall take all reasonable steps to perform its obligations and deliver within the time specified, but such times are estimates only. The Seller shall not be liable for expenses losses or damages caused by late performance or delay in delivery and such late performance or delay shall not entitle the Customer to rescind the contract.

6.2 Without prejudice to the above, the Seller shall have no liability for any expenses losses or damages caused by delay or default in performance of any obligation caused directly or indirectly by break-down or unavailability of plant or machinery, failure of raw material or supply of raw material, inability to obtain sufficient skilled labour or any other cause or causes beyond the reasonable control of the Seller.
7.

RISK CARRIAGE PACKAGING AND STORAGE

7.1 Subject to the Seller agreeing the place and method of delivery in writing, the cost of delivery will be paid by the Seller on all orders over the sum specified in the Seller's price list from time to time and all orders less than such sum will be subject to a "small order" processing charge. In the event that the Seller does not agree the place and method of delivery the Seller shall be entitled to charge for the cost of delivery.

7.2 Unless the Customers specifies otherwise, the Seller reserves the right in its absolute discretion to choose the means of carriage to the Customer. Any such specific instructions must be given to the Seller at the time of order and where such specific instructions are given the Seller reserves the right to charge for delivery.

7.3 The risk of any loss, damage to or deterioration of the Goods shall pass to the Customer upon delivery or attempted delivery (in accordance with clause 7.4) of the Goods.

7.4 Once the goods are ready for delivery the Seller shall be entitled to invoice and be paid for the Goods as if they had been delivered if for any reason the Customer does not accept delivery. In such circumstances the Seller may arrange storage for the Goods and the cost of storage will be added to the Contract price. Where the Goods are to be delivered in instalments, each delivery shall constitute a separate contract and failure by the Seller to deliver any one or more of the instalments in accordance with these Conditions or any claim by the Customer in respect of any one or more instalments shall not entitle the Customer to treat the Contract as a whole as repudiated.
8.

TERMS AND REPRESENTATIONS

8.1 The Seller shall have no liability for damages to, deterioration in or partial loss of the goods in transit or shortfall in delivery unless:-

8.1.1 If the matter should have been apparent on a reasonable examination on delivery, the Customer gives written notice to the Seller within 10 days of delivery.

8.1.2 If the matter should not have been apparent on a reasonable examination on delivery, the Customer gives written notice to the Seller within 3 days of delivery.

BG Terms & Conditions

- 8.2

The Seller agrees to repair or (at its discretion) replace or (at its discretion) issue a credit note in respect of goods which are found to be defective by reason of faulty material and workmanship and which are returned to the Seller within ten years of delivery or within 2 years of delivery for mains related electronic and electronic products providing that each of the following are satisfied:

8.2.1 Notification of any defect is given to the Seller as soon as reasonably practicable after becoming apparent to the Customer;

8.2.2 The Goods have only been operated under normally operating conditions and have only been subject to normal use;

8.2.3 No work whatsoever (other than normal and proper maintenance) has been carried out to the Goods without the Seller's prior written consent;

8.2.4 The Goods have been assembled or incorporated into other goods by a qualified and recognised electrician and only in accordance with any instructions issued by the Seller;

8.2.5 The defect has not arisen from an item manufactured or supplied by a person other than the Seller.

In respect of any item manufactured by a person other than the Seller, the Customer shall only be entitled to the benefit of any warranty or guarantee provided by such manufacturer to the Seller.

8.3 To the extent that the Seller is held legally liable to the Customer for any breach of contract or tort or other act, default, omission or statement, the Seller's liability for the same shall not exceed the price received by the Seller for the Goods;

8.4 To the extent allowed by law the Seller's liability under these conditions shall be to the exclusion of all other liability to the Customer whether contractual, tortious or otherwise for defects in the Goods or for any loss or damage to or caused by the Goods, and all other conditions, warranties, stipulations or other statements whatsoever concerning the Goods, whether express or implied by statute, at common law or otherwise are hereby excluded. In particular (but without limitation to the foregoing) the company gives no warranty regarding the fitness for purpose, performance, use, nature of merchantable quality of the goods, whether express or implied by statute, by common law or otherwise.

8.4.1 Without prejudice to the above, the Seller shall not be liable to the Customer for loss of profit, business, contracts, revenues, or anticipated savings or any special indirect or consequential damage of any nature.

8.5 If any exclusion or limitation of liability or any other provision contained in the Contract is held invalid under any applicable statute or rule of law, it shall to that extent be deemed omitted, but if the Seller thereby becomes liable for any liability which would otherwise have been excluded or limited, such liability shall be subject to the other exclusions limitations or provisions set out in Condition 8.

8.6 The Customer shall fully indemnify the Seller against all losses, damages, costs, actions, claims, demands, fees and other expenses (legal or otherwise) the Seller may incur in consequence of the Goods being (whether in whole or in part and directly or indirectly) involved in a claim under the Consumer Protection Act 1987 except to the extent that the alleged defect in the product the subject of such a claim was directly caused by an act or omission of the Seller.
9.

TERMINATION

9.1 The Seller shall, at its option, be entitled by notice to terminate all or any of its Contracts with the Customer and recover all expenses, losses and damage resulting to the Seller including (but without limitation to) loss of profit or other consequential loss if:

9.1.1 (a) the Customer has a bankruptcy petition presented against him or a bankruptcy order is made;

(b) the Customer makes or seeks to make any composition or arrangement with his creditors or the Customer makes a proposal to his creditors for a voluntary arrangement or applies for an interim order (within the meaning of Section 288 Insolvency Act 1986);

(c) a receiver or administrative receiver is appointed over any of the customer's assets or an encumbrance takes possession of any of the customer's asset or any of the Customer's property is taken in execution or process of law;

(d) a petition is presented or any order is made or resolution is passed for the winding-up of the Customer or a petition is presented or an order is made for an administrative order to be made in relation to the Customer (meaning of Section 123 Insolvency Act 1986); or

9.1.2 The Customer fails to make any payment owed to the Seller on the due date; or

9.1.3 The Customer is in material breach of the terms and conditions of any contract with the Seller (including breach of these Conditions).
10.

CUSTOMER PROPERTY

10.1 If any property of whatsoever nature of the Customer is used in connection with the Goods the Customer shall indemnify the Seller for any loss or claim suffered by the Seller as a result of using such property. If such property has not been removed within three months from the date on which the price becomes payable, the Seller reserves the right to charge a storage fee.
11.

NOTICES

11.1 Any notice, consent, notification, acknowledgement, authority or agreement required or referred to in the Contract shall be:

11.1.1 In writing; and

11.1.2 Given to the party for whom it is intended as such party's registered or main office or last known address; and

11.1.3 Given by registered or recorded delivery post and shall be deemed to have been received 3 days after the date of posting.
12.

JURISDICTION

12.1 The Contract shall be governed in all respects by English Law and be subject to non exclusive jurisdiction of the English Courts.
13.

DELIVERY

13.1 Carriage will be paid on all orders to the value of £200 and over. For orders less than £200 nett value there will be a 'small order charge' of £15.00. We reserve the right to supply outter carton quantities.

Product Support

To support the aesthetic creations of interior designers and different commercial and domestic purposes, BG offers a range of product options and helpful resources to match your project needs.

Part M

BG offers a range of contrasting grey finished accessories to enable compliance with the current Building Regulations Part M. (see page 36)

Packaging

To support construction waste requirements, BG is able to supply products for agreed projects with minimal packaging waste.

Bespoke Products

BG's flexible manufacturing approach allows us to offer a wider range of options that are not listed in this catalogue.

Alternative Colours

Product Engraving Options

Bespoke Products

Bespoke Finishes

Bespoke decorative wiring accessory finishes

Attractive finishes to suit all your project needs

BG has created fourteen unique finishes that are available for selection, or we can endeavour to accommodate a specific finish if required. Available in Nexus Metal & Nexus Flatplate (Screwed/ Screwless) ranges (subject to conditions).

Please contact your Specification Manager for more details.
